

**The WeTeach Columbus program gives students interested in math, computer science and science secondary education a chance to meet, socialize, and share experiences.**

During the meetings, students and faculty share helpful information about upcoming conferences, events, and service opportunities as well as tips ranging from managing a classroom to getting a teaching job.

Tools, technology and activities that can be used to engage students in a classroom setting are presented with active participation of the members.

- Bi-Monthly Meetings
- Enhanced Teacher Training
- Real World Job Prep
- Leadership Development
- Scholarship Opportunities
- FOOD!!

WeTeach social activities include an end of semester awards presentation luncheon hosted by the UTeach faculty. A highlight of Fall semester is our annual WeTeach Halloween party.
