SAGE: Spring Annual Game Exposition

Davidson Student Center, Room 256

SAGE is in the TSYS School of Computer Science. The course Game Programming II teaches students to develop 3D games with a game engine. They work in groups by forming game studios. Tower Day will feature the SAGE series of presentations where students will talk about the specific areas of responsibility in their game studios. SAGE will continue through Friday, April 14 with demonstrations by students.

1:00 pm - 1:15 pm, Terrance Maxwell - *Powerful Spells and Persistent Storage*
