

# Poster Presentations: Description and Guidelines

Poster sessions consist of a collection of student projects presented concurrently in a room with projects in the same discipline. Students present their work on tri-boards or large posters and spend an hour talking to text-sm groups who circulate throughout the room. This is a great way for students to interact personally with their audience and ideal for those who are hesitant to talk in front of a larger group.

## Poster Examples

### **Summra Akalework & Kathleen Rhinebolt**

Mentors: Guihong Fan & Kristin Seamon Lilly

Comp Sci - Cybersecurity

[Direct & Indirect Factors in the Rise of COVID-19](#)

### **Jenna Blanchard, James Robbins, Megan Lozier & Hayley Walker**

Mentor: Emily Taylor

Nursing

[NICU Medication Errors](#)

### **Sophia G. Brown**

Mentor: Masako R. Okura

History

[Analyzing How Female Politicians are Represented in Magazine Profiles](#)

### **Sophia G. Brown**

Mentors: Sarah Bowman & Martin Ruehl History

[Fascism in America: A Reassessment](#)

### **Stephanie D. Clarke**

Mentor: Diana K. Riser

Psychology

[Electrocortical Correlates of Emotion Processing in Resilient and Non-Resilient Individuals](#)

### **Madison M. Coleman, Cassi Caughey, William Whisnant & Ladonna Jenkins**

Mentor: Stacey S. Blersch

Earth and Space Science

[Weracoba Creek Watershed Plan](#)

## Guidelines

Posters may be created from tri-boards or large format posters printed by the Copy Center/ CSU Printing Services located on the first floor of Davidson. Large format poster printing is completed at a nominal cost, which is often funded by academic departments. Upon acceptance to Tower Day, students intending to use this resource should bring their posters saved on a Thumb Drive or otherwise electronically to the Copy Center. Printing Services asks that the File be saved in the Dimensions that it is to be printed on. They can also mount the large poster to a board, but this will take longer. For Tower Day, the physical poster may not exceed a five foot width. A recommended size is four feet in width and three feet in height; however, standard sizes may vary by discipline. Consult with your mentor on this.
