Tutor.com Information

The ACT is currently piloting the limited use of tutor.com to provide limited online tutoring when an ACT tutor is not available. This will cover most of the same services (general core course and writing in any course) and help to ensure tutoring availability and provide support outside of regular business hours. Students must access through CougarView for covered services. Please contact the ACT if you have any questions.

Tutor.com for CSU Students

For more information about how to use tutor.com please watch the brief video below. You can also visit their website.
