
About Center for Academic Coaching

Mission Statement

The mission of the Center for Academic Coaching is to provide CSU students with high-quality, innovative academic coaching and advising that empower them to make sound decisions regarding their educational, personal, and professional goals.

The Center for Academic Coaching serves as Columbus State University's central resource for information regarding academic programs, student support services, and other campus opportunities. Academic Success Coaches collaborate closely with faculty advisors and departments to provide specialized support for transfer students, undeclared students, military-connected students, and students considering a change of major. In addition to serving select populations, the Center for Academic Coaching offers general academic guidance and resources for all students.

Columbus State University provides a comprehensive academic coaching system staffed by highly qualified Academic Success Coaches who engage with the diverse student population in a positive, productive, and ethical manner to assist students as they identify, clarify, and accomplish their educational and career goals.

Locations

The Center for Academic Coaching has two locations to serve students, with each location supporting different majors and academic focus areas.

- [Simon Schwob Memorial Library](#) (Main campus)
- [Frank Brown Hall](#) (RiverPark campus)
