
Colleges and Departments

College of the Arts

The College of the Arts, from its nationally accredited programs in art, music and theatre to its communication program's Non Profit and Civic Engagement Center (NPACE), is building upon its well-deserved reputation for excellence. With world-class, state-of-the-art facilities on the RiverPark Campus, the College endeavors to attract nationally and internationally recognized faculty so as to foster active student engagement in the intellectual and creative process.

Turner College of Business & Technology

The mission of the Turner College of Business & Technology is to create better futures for our diverse student body by producing a career-ready workforce. Our programs are in business and technology -- and where the two meet. The TSYS School of Computer Science has several nationally recognized programs and has been designated by the U.S. National Security Agency as a Center of Academic Excellence in Cyber Defense Education. The College's business programs are distinguished by their international accreditation by AACSB International – the Association to Advance Collegiate Schools of Business. Fewer than a third of the nation's business programs have earned this distinction – a distinction that validates the quality of both our faculty and programs, and signals that we have reached a level of excellence achieved by only the most select schools.

Honors College

The mission of the Honors College is to provide an innovatively delivered curriculum for high achieving students who choose to challenge themselves beyond the boundaries of classrooms or academic departments. Established in 1998 with a small cohort of students, the successful honors program flourished and garnered tremendous community support. In 2014, the Board of Regents approved the creation of our Honors College, which now serves over 300 students.

The Graduate School

Columbus State University provides masters and specialist degrees in more than 35 areas of study and a Doctor of Education in Curriculum and Leadership. Our purpose is to promote student achievement, research, scholarship, global learning, strategic partnerships, and engagement in discovery and practice. You can expect one-on-one interactions with outstanding faculty and a close working relationship with your advisor. Moreover, faculty mentors guide you to service, publication, presentation, and research opportunities. CSU also offers high-level opportunities for research, service, and teaching.
