

# CSU Online

Advance in your current career or launch a new one. With CSU Online, you can learn on your terms with flexible, convenient online courses and degree programs.

## Experience a CSU Education

At Columbus State University, we know the challenges of balancing education with work and family. CSU Online helps simplify things by offering flexible and convenient online courses and degree programs.

CSU Online is designed for your success. Connect with instructors who are skilled in online learning and collaborate with other students virtually – all through CougarVIEW, an easy-to-use platform that's available 24/7. And since many online programs have no campus visit requirement, you won't have to worry about a commute.

Create what's next from the comfort of your own home with CSU Online!

### Create Your Path

Education is all about choice. Columbus State University offers 39 online programs – and that number is growing every year. With CSU Online, you can fulfill degree requirements, enhance your professional qualifications, or simply explore new interests. Create your own educational path with us!
