
Department of Biology

Come Explore About the Department of Biology

Study biology in one of the most diverse ecological regions in the United States. Featuring wetlands, a loess bluff forest, and a limestone glade, the Southeastern region is rich in biodiversity and the perfect place to explore the natural sciences.

At CSU, you'll work side by side with instructors and learn by doing. Apply the latest techniques in molecular and cellular biology through field work, independent lab projects, and immersive internships.

The department offers an MS degree in natural science, a BS in biology, and a BA in biology. No matter which program you choose, you'll be part of a community of learners – collaborative scholars who are eager to help each other better understand the natural world.

Create Your Future Degrees and Programs

The Department of Biology offers a number of degrees and minors. Explore your options here.
