

# TSYS School of Computer Science

Come Explore About the TSYS School of Computer Science

To keep pace with the rapid growth of technology, every industry needs professionals who are highly skilled in IT, software development, cybersecurity, and more.

Columbus State University is helping meet this demand by offering multiple degree options in computer science through the TSYS School of Computer Science. Choose from two graduate (on-campus and fully online ) and four undergraduate programs with different specialization options # each designed to encourage creative problem-solving and develop hands-on skill.

We work closely with regional businesses and industries to understand their needs and create a responsive, state-of-the-art learning environment. Every program and major is current, providing you with a firm foundation in the technologies of today and preparing you for the technologies of tomorrow.

Create Your Future Degrees and Programs

The TSYS School of Computer Science offers a number of degrees and minors. Explore your options here.
