

# BACK TO SCHOOL

FALL 2020

COLUMBUS STATE  
UNIVERSITY

creative to the core.

## PACK YOUR "SCHOOL SUPPLIES"

- **Face coverings:** Students, pick up your CSU face masks from 7am to 10am and 5pm to 7pm at the Lumpkin Center or Riverside Theatre this Monday and Tuesday.
- **Hand sanitizer:** We have hand-sanitizing stations around campus, but keep an extra bottle handy in your backpack or purse.
- **Debit card, credit card or your Cougar Card:** we're handling as many transactions as possible through contactless payment methods.
- **Vehicle registration:** If you're parking on either campus, you'll need to register your vehicle by Friday, Aug. 21 for the 2020-21 academic year.
- **Lunch or a snack:** Our dining facilities will be open, but with physical distancing and limited seating guidelines in place, wait times will be longer than usual (The consumption of food and beverages in classrooms is discouraged for health reasons).

## MONITOR YOUR HEALTH

- **Know the symptoms:** Check out the CDC website for information and a symptom self-checker.
- Use one of our temperature check stations located throughout campus.
- Seek health and emotional support from Student Health Services or the Counseling Center, or contact Human Resources for employee support options.
- **Feeling sick?** Stay home and report your symptoms, possible exposure or a positive test to your supervisor (employees), to the dean of students at [DOS@columbusstate.edu](mailto:DOS@columbusstate.edu) or 706-507-8730, or through our online form.

## EXPECT CHANGE

- Log in to CougarView and check your CSU email frequently to ensure you have the latest updates.
- Download our "What's Open on Campus" infographic to your phone or computer so you know how, where and when to access various campus services.
- Remain flexible and be kind to each other — everyone is experiencing their own challenges right now.

## NAVIGATING CLASSES & CAMPUS

- From sneeze guards to signage, campus will look very different this year. Please keep all signs, markings, and furniture in its place.
- Instructors may incorporate flexible-hybrid models of learning to reduce class sizes and ensure physical distancing. Check your CSU email and CougarView for clarity on when, where and how you are to report to class.
- Dining facilities will feature reconfigured indoor seating and new outdoor seating areas to facilitate physical distancing practices. To-go options will offer grab-and-go convenience and help avoid wait times.
- Physical distancing guidelines on shuttles will affect capacity and route schedules. Budget a few extra minutes to arrive at your destination if you're relying on shuttle transportation.

## BE SAFE

- Wash your hands often and thoroughly — singing "Twinkle, Twinkle Little Star" twice or "We will, we will rock you" three times while washing your hands will get the job done!
- Wear a mask to protect yourself and others, and encourage others to do the same — replacement masks are just an eQuest away.
- Practice physical distancing in buildings, shuttles, and when in line at dining facilities, the bookstore and other locations.
- Continue physical distancing outside as well, which should also include wearing a face covering.
- Follow instructions provided through campus signage.
