10					

Game A: (use 3 – 6 dice)

- Player 1 rolls, for example, 4 dice and secretly selects a number.
- He/she records the number on the recording sheet.
- Player 2 does the same.
- Players record each other's numbers.
- Player 1 spins "less than/greater than" spinner.
- Player with the number that matches the spin wins the round.
- Repeat for each round, alternating who spins the < or > spinner.

Game B:

- Player 1 spins the spinner to determine < or >.
- Players roll the dice and secretly record numbers as in the Game A rules.
- Winner is the player with the number that matches the spin.

Game C:

- Player #1 rolls n dice & secretly chooses his/her number.
- Player 1 then spins the < or > spinner.
- Player 2 rolls n dice and tries to select a number that will win the round.
- Players alternate who goes first and who spins first.
