

Name: _____

Pick 6 Recording Sheet

For each round, record your starting number. Use this number and your change cards to write an equation.
Example: Starting number is 57 and you used change cards: -30 and $+1$. The number sentence, or equation would be $57 - 30 + 1 = 28$. On your next turn you would start on 28 and move from there. Put Round 1 change cards to the side and repeat the steps.

Example	$57 - 30 + 1 = 28$
Round 1	
Round 2	
Round 3	
Round 4	
Round 5	
Round 6	
Round 7	
Round 8
