

Columbus Regional Mathematics Collaborative

We are the Mathematics Collaborative at Columbus State University.

CRMC Spring Hours:

- Monday: 1-6
- Tuesday: 9-1
- Wednesday: 9-1
- Thursday: 12-4

We happily serve **anyone** with mathematics questions and more importantly, *the best way to teach mathematics*.

- Are you an *elementary school teacher*?
- Are you a *parent* looking for the best way to help their student?
- Are you a *high school teacher* looking for better ways to engage your classes?
- Are you a *college student* struggling to get lessons together for an assignment?
- Are you an *administrator* looking to support your teachers?
- Are you a *teacher* looking to network with other teachers and share common ideas and resources?
- Or do you have another *burning question* about learning mathematics?

We've been working on these questions for over thirty-three years now and we've gotten pretty good at it!

You will find on our webpage - access to Consulting, Professional Development, Elementary Math Resources, Middle School Math Resources, High School Math Resources, Parent Resources, Math Competitions, programs to improve fluency, and so much more! Just look down the left side of this webpage.

We appreciate the opportunity to serve our community and make our little piece of the math world a little bit better.

We are thankful to be a Center of Excellence housed in the Department of Education and Health Professions. Columbus State University supports our work and funding efforts through the CSU Foundation, through partnerships, and also grants. In addition, the Collaborative receives funding from area school systems through the purchase of services and partnerships.

Our goal is to serve anyone who seeks our help.
