

Math Masters Middle School Math Competition

Math Masters, a middle grades mathematics competition, is a collaborative effort among the Columbus Regional Mathematics Collaborative, the Department of Teacher Education, and the Department of Mathematics.

Teams of middle grades students work together to solve task-based math problems. When they have agreed on an answer, they orally present their work to a Master Teacher. When the team answers correctly, they move to the next question. The top three teams with the most correct answers take trophies back to their schools.

Math Masters 2025 Competition Winners

1st Place

Veterans Memorial Middle School

2nd Place

Richards Middle School

3rd Place

Rainey McCullers Middle School
