Program HighlightsYour Academic Experience

- Connect with our regional partners through **internships, co-ops, and research** opportunities
- **Tutoring and peer support** labs available online and on campus
- **70% of students** complete internships before graduating
- **90% of graduates** receive job offers or are accepted to graduate school

At Columbus State University, our Bachelor of Science in Computer Science program is designed to equip students with the skills and experiences needed to thrive in today’s rapidly evolving tech industry. The curriculum blends foundational computer science principles with hands-on learning opportunities in areas such as software development, artificial intelligence, data science, web development, game design, cybersecurity, and cloud computing

Dr. Raina HodhodProfessor

My dream is to become a data scientist after graduation. The courses in this program are helping me work toward that goal by providing valuable hands-on learning opportunities and practical skills that closely align with the demands of the job market.

Quang Khai DinhSophomore

What Can You Do With This Degree?

Explore job trends, average salaries, and growing opportunities so you can see how your degree connects to meaningful career pathways and the future of your field.
