

# Data Analytics

Main Content	Just the Facts	Additional Resources
<p>About the Program Learn Data-Based Decision Making</p> <p>CSU's Data Analytics Certificate is open to all majors and non-degree students. In just 18 credit hours, you'll gain the technical and analytical skills to collect, interpret, and present data using industry-standard tools and methods. No enrollment in a degree program is required.</p> <p><a href="#">Apply Now</a></p> <p><a href="#">Request Info</a></p>	<p><b>Total Credit Hours:</b> 18 Hours</p> <p><b>Delivery Format:</b> On Campus</p> <p><b>Completion Time:</b> 2-3 semesters</p>	<p><a href="#">View the Program of Study</a></p> <p><a href="#">View Admission Requirements</a></p>

## Program Highlights Your Academic Experience

- **Gain practical skills** in data science and statistical programming
- **Hands-on** coursework prepares you for real-world analytics challenges
- **Dedicated faculty** with real-world experience

The Math and Political Science departments and Honors College professors had a huge impact on my educational and professional development. The Math department gave me a ton of opportunities for professional development by setting me up with three separate internships that aligned perfectly with my current career as a modeling and simulations analyst. The combination of skills and experience from the Honors College/both departments was the reason I was hired into the career I aspired for, before I even had my diploma.

TJ Sabau '23 BS in Political Science and Minor in Data Analytics

## What Can You Do With This Degree?

Explore job trends, average salaries, and growing opportunities so you can see how your degree connects to meaningful career pathways and the future of your field.
