My time at CSU has been transformative and enlightening, helping me discover that psychology is truly my path. The department encouraged me to engage more in class discussions and connect with professors as mentors, which ultimately inspired me to pursue graduate studies and begin reaching out to Ph.D. programs.

Montavious Grant '25 Psychology Student

I have grown with the guidance of my professors and the support of my classmates. CSU has instilled me with the skills of data collection, quantitative analysis, and the knowledge needed for my pursuit of graduate school. I send thanks to all individuals and staff members who continued to encourage me during the development of my skills as a future clinician.
