Urgent Care Clinics

Urgent care is defined as the delivery of ambulatory medical care outside of a hospital emergency department on a walk-in basis without a scheduled appointment. Urgent care centers treat conditions that are not life-threatening but need quick attention. If you do plan to visit an urgent care clinic, please be prepared to spend a couple of hours receiving complete care and treatment. However, this can still be a better alternative to waiting a couple of days to a week in order to see a regular doctor or physician.

Family Practice Doctor

Family practice medicine is the medical specialty which provides continuing, comprehensive health care for the individual and family. It is a specialty that integrates the biological, clinical and behavioral sciences. The scope of family medicine encompasses all ages, sexes, each organ system and every disease entity. If you are interested in receiving a regular health exam or check-up, or treatment for minor illnesses and injuries it is best to schedule an appointment with a family practice doctor in the area.
