

Graduate School Recruitment Grants

The Graduate School sets aside a portion of its budget to provide text-sm (up to \$500) grants to support the recruitment efforts of programs or departments. Program directors, other program faculty or department chairs may apply. Grant proposals should focus on new recruitment efforts for graduate-level programs. The efforts may include, but are not limited to, funds for printing flyers or other recruitment material, virtual graduate fairs, graduate program fairs at conferences. Currently online ads are not supported by this grant. Those who are interested in online ad campaigns are encouraged to reach out to the office of Strategic Communication and Marketing.

The application requires a description of the recruitment plan including a timeline, rationale, and a detailed budget. Please use the [Recruitment Grant Application](#) form to apply for the grant. For questions contact Dr. Yesem Kurt Peker at peker_yesem@columbusstate.edu.
