## Parents

The **SHC** understands that you may worry about your student's health and well-being, and we encourage you to have an open relationship with your student when it comes to their healthcare. It is helpful for your student to know their personal health history, such as allergies to food or medications, and your family history. However, as health care providers, we must follow FERPA, HIPAA, and Patient's Rights guidelines. This means the **SHC** is unable to discuss any information regarding your son or daughter, if they are 18 years or older, without [their written authorization for release of medical information](#).

We ask you to please refer to the HIPAA and Privacy Guidelines listed under the Forms tab, to the left of this page, for any clarification on this matter. However, feel free to contact us if you have general questions or if you have information to share with us regarding your child.

The Student Health Insurance Plan (SHIP) provider, United Healthcare Student Resources (UHCSR) is available for purchase. It also has telehealth resources. Please see [Student Insurance](#) for more detailed information.
