216011	Fall 2014	ARTH-3127	Presentation of Research in Modernist Art History	A 15 minute PowerPoint presentation of my expanded course essay. By the end of this course, each student is to have written a research paper investigating an aspect of the art of the Modernist era. We are mainly surveying the art produced in France – specifically Paris – as central to the movement. However, I am to write a longer essay investigating the British aspect of it and present it in a PowerPoint presentation to the class.
221021	Fall 2014	ARTS-3256	Visual Art Portfolio Development	I will develop a proper art portfolio by putting together and developing a body of work that will be readily available to send out in applications to exhibits, public commissions, publications, and graduate programs. The project of putting together a portfolio will follow a linear process from start to finish. The project will require me to learn how to document and manage artwork electronically. The images and the artist's statement will then be used in applications to exhibitions or publications.
