<b>Contract</b>	<b>Term</b>	<b>Course</b>	<b>Contract Title</b>	<b>Contract Description</b>
326082	Fall 2016	HESC-5115U	Prevalence of Dental Caries in Rural versus Urban Populations	For this project, I will be looking at literature reviews and compare the prevalence of dental caries in rural populations versus urban populations. I will also list the possible causes of the dental caries in the different populations and describe what dental caries are.
327088	Fall 2016	HESC	Research Paper: Effects of Pre-Workout on Consumers	Contract: 7-10 page research paper and oral presentation Topic: Student decision - I would like to research the effects of creatine (pre- and post-workout) supplementation on consumers - are the effects more psychological or is there a significant physical change when creatine is taken? After completion of writing a 7-10 paper in APA format - I will give an oral presentation to the Consumer Health class about the effects of creatine (pre- and post-workout) supplementation on consumers. This will hopefully encourage discussion/debate within the class.
328082	Fall 2016	HESC	Survey Activity	Survey Activity: I will develop a research question that I can create a survey that will help me obtain results. After I have collected the results and have analyzed them, I will write up a report. The report will include how I conducted the survey (population, questions, instrumentation) as well as my results and my hypothesis.
