

Chemistry

Contract	Term	Contract Title	Course	Description
354089	Fall 2017	Behind the Scenes of DNA Structure Discovery	CHEM 3141	Through reading The Double Helix by James Watson, I will gain an insight into the events leading up to the discovery of the three-dimensional structure of DNA.
354086	Fall 2017	The Double Helix	CHEM 3141	We will be reading a book titled The Double Helix written by James Watson. We will be meeting in reading circles to discuss the various themes of the book. The book was written in a different time that had sexism, racism, and unclear scientific ethics. After the last reading circle meeting we will write a paper about what theme in the book impacted us the most.
354094	Fall 2017	The "Double Helix" Reading Circle	CHEM 3141	For this project, the "Double Helix" by James Watson will be read and accounted for. The author, James Watson, wrote his memoir well before the ideals of political correctness were widely accepted. Understanding and comprehending how DNA relates back to our everyday life is a phenomenal wonder. Even though this book was written a time back, the discoveries will be talked about within our scheduled circle meetings.
