Contract	Term	Course	Contract Title	Description
379103	Spring 2018	GEOG 3215	Space Syntax and Depthmapx	I will study space syntax theory, the relationship between society and space and people's perception of space itself. I will then use the depthmapx program, a digital form of spatial analysis, to apply this theory to the construction of two monuments commemorating the Civil War era in downtown Columbus.
