

Contract #	Term	Course	Contract Title	Description
404092	Fall 2018	NURS 3276	Health Assessment in Humanitarian Settings	An overview and research on the health assessments performed by NGOs and aid organizations when they allow refugees, IDPs, and migrants to enter their camps.
408082	Fall 2018	NURS 3276	A Study of Chronic Health Conditions in Syrian Refugees	I will write a paper detailing some of the most common chronic diseases faced by Syrian refugees currently living in several different countries. The chronic diseases will vary by age group and severity. I will look at the repercussions of Syrian refugees not being able to get the medical help they need, and I will look at the possibility of their circumstance creating these chronic cond
