
Student Life Staff

Office of Student Life & Development

Student Life Mission Statement

The Department of Student Life and Development at Columbus State University promotes involvement, learning, and success through intentional programming and developmental opportunities. Recognizing that student growth is shaped by all aspects of campus life, Student Life encourages collaboration with students, faculty, staff, alumni, and the Columbus community to support engagement across the university. We are committed to offering creative and meaningful events for students on both the RiverPark and Main campuses.

Student Life Vision Statement

Student Life and Development aims to build a connected and supportive community where students thrive on their path to graduation. Along the way, students grow into leaders through active participation in engaging and purpose-driven experiences guided by dedicated student development professionals.
