

Department of Mathematics

Come Explore About the Department of Mathematics

From climate research to space exploration, advances in science are fueled by the power of mathematics. As a math major at CSU, you'll be part of a thriving community of learners who are studying applied mathematics, computer science, finance, and more.

The department offers three undergraduate programs, two minors (Mathematics, Data Analytics) and two undergraduate certificates (Mathematics, Data Analytics). Each is designed to prepare you to take the next step in your education or launch your career in this global, high-demand field.

We believe the best education happens inside – and outside – the classroom. As a student, you'll have access to internship opportunities, math and biology seminars, scientific teaching seminars, and collaborative research projects.

Create Your Future Degrees and Programs

The Department of Mathematics offers a number of degrees and minors. Explore your options here.

Our Faculty Learn From the Best

The Department of Mathematics is home to many accomplished faculty members. Several are highly regarded as experts and have been recognized with notable honors and awards. Thanks to a low student-to-faculty ratio, you'll be sure to receive an excellent education in our degree programs.
