
Silent Witness

Anonymously report a crime with Silent Witness

What is silent witness?

- A program that allows for *anonymous* reporting.
- A program to help University Police obtain information regarding criminal activity.
- A program that ensures the information gathered goes to the proper law enforcement agency — and nowhere else.

How does silent witness work?

- The reporting form available from the Silent Witness page is a fill-in-the-blank exercise that helps the reporting person record all known data about the criminal activity.
- By completing the form and clicking on **Submit Report**, the information becomes a "blind" e-mail that will not disclose to police identity of the person making the report.

All information will be kept confidential.
Your identity will NOT appear on the report.
