# PDF Transcripts

Columbus State University is offering transcripts in PDF format.  Students can send PDF transcripts to any valid email address (another college or university, third-party recipient or themselves).  Current students, former students and alumni can request a PDF transcript online anytime and from virtually anywhere through Parchment.

PDF transcripts are official transcripts.  If you need your transcript quickly it is highly recommended that you choose the PDF option, as it can take up to 10 business days from the day your order is completed for you to receive a transcript sent via 1st class mail. However, please be aware that when sending a PDF transcript to yourself, it cannot then be forwarded to a different email address. Forwarding a PDF transcript makes it unofficial. If your transcript is going to a third party, you should have it sent directly to their email address, this ensures that the transcript will still be considered an official University document.

PDF transcripts are $14.00 each, payment must be made by debit or credit card unless paid by cash or check in person.   Parchment is the vendor which Columbus State University contracts with to provide official PDF transcripts through an encrypted and secure service. If you have questions about the process or encounter difficulty in entering your order please contact Parchment customer service.
