MISSION STATEMENT

Columbus **S**tate **U**niversity's mission is to promote educational, economic, social and cultural growth in Georgia and beyond. The University is dedicated to excellence in teaching in a student-centered environment, research and creative activities, service to the region and the state, and community engagement through university-community partnerships.

This mission will be achieved within the context of the Mission of the University System of Georgia and the Core Mission Statement for State Universities of the University System of Georgia.

ACADEMIC INFORMATION

The Columbus State University catalog is the primary source for academic information concerning grades, class standing, probation, exclusion, and re-admission.

The director of admissions and the registrar are available if assistance is needed in the interpretation of academic regulations.

Admissions Office

The Admissions Office is located in University Hall. Although contact with the Admissions Office occurs primarily prior to enrollment, many services are available to currently or previously enrolled students. Staff members are available to provide assistance in meeting residency requirements for fee purposes, and readmission procedures.

Office of the Registrar

The Office of the Registrar is located in University Hall. Staff members are available to provide services in a variety of areas, including degree requirements, registration, transfer of credit, academic transcripts, graduation, and enrollment verification. Detailed information regarding the grading system, grade point averages, academic citation, course withdrawal and refunds, graduation and honors, and the Regents' Test may be found in the Columbus State University catalog. Complete information on undergraduate and graduate programs at Columbus State University, as well as limited information about other universities, is available upon request.

Academic Advising and Registration

Academic advising is an integral part of the educational program. Advising is the continuing interaction between student and advisor in a developmental process that involves the exchanging of information and setting of goals. This process enables the student to understand the educational and career options available.

Students admitted to Columbus State University will be assigned to either University College (undeclared, high school joint enrollment, and learning support) or a CSU department. The advisor must approve specific courses required to complete the degree of the student's choice. The student maintains communication with the advisor throughout the academic career.

Students may register by logging onto the CSU website, www.colstate.edu, entering the CougarNet portal, and then accessing the Enrollment Services Tab. Please refer to the CSU Web for specific dates and information regarding early registration, late registration and schedule change. Students registered for eCore courses should review the following link which provides eCore specific information regarding academic calendars and course expectations. <http://www.alt.usg.edu/ecore/>

Early registration

A special advisement and early registration period is held each semester. Before early registration begins, all advisors set aside ample time to be available for academic advisement for the upcoming semester. Students are encouraged to make an appointment each semester to take advantage of this opportunity.

Late registration and schedule change

Students who do not register early may register during late registration prior to the first day of classes. Additionally, students who wish to change their schedules may do so during the late registration and schedule change periods.

If you have a disability that may prevent you from meeting course requirements, contact the instructor before the end of the first week of classes to file a student disability statement and to discuss a reasonable accommodation plan. Course requirements will not be waived but accommodations may be made to assist you to meet the requirements, provided you are timely in working with the instructor to develop the plan.

Academic Standing

The progress of all students is evaluated at the end of each semester. GPA hours and grade points earned at other institutions are used in computing grade point averages as they affect academic standing. Students receiving financial aid should also refer to satisfactory academic progress under the financial aid section of the catalog.

Academic probation

Academic probation occurs when a student's overall grade point average falls below the satisfactory progress levels shown below.

Continued academic probation

Continued academic probation occurs when, at the end of a student's probationary semester, a student's semester grade point average is 2.0 or higher and the overall grade point average falls below the satisfactory progress levels shown below.

Removal from probation

Removal from probation occurs when, at the end of a probationary semester, a student's overall grade point average equals or exceeds the satisfactory progress levels shown below.

Academic exclusion

Academic exclusion occurs when, at the end of a probationary semester, a student's semester grade point average is lower than 2.0 and the overall grade point average falls below the satisfactory progress levels shown below. The length of exclusion resulting from grade point averages will be a minimum of one semester after the first and second exclusion, and a minimum of one calendar year after the third exclusion. Credit earned at other institutions during a mandatory exclusion period will not transfer back to Columbus State University.

Reinstatement on academic probation

After the mandatory period of exclusion, as stated above, has elapsed, a student may apply for reinstatement on probation. The application must reach the Admissions Office by the published application deadline for the semester. Students must satisfy the conditions of the reinstatement before they will be eligible to register for classes for the following term.

Satisfactory Progress Levels

Total GPA hours attempted (*)	Minimum overall grade point average for satisfactory progress
00-29	1.40
30-59	1.60
60-89	1.80
90 or more	2.00

** Includes transfer and Columbus State University GPA hours*

Learning Support Academic Standing

Determination of academic standing is based on the student's overall and semester grade point averages, and the number of course attempts in required learning support subject areas.

Learning Support probation

Learning Support probation occurs when a student's required learning support subject area is not satisfied after two course attempts.

Removal from Learning Support probation

Learning Support probation removal occurs when a student assigned to learning support satisfies a required subject area.

Learning Support Dismissal

Learning Support Dismissal occurs when a required learning support subject area is not satisfied after three course attempts. The length of dismissal, which is based on the number of learning support course attempts without satisfying a required subject area, will be three years. Before being placed on dismissal, a student may appeal for two additional learning support course attempts if the student is in the exit-level learning support course and has not reached the three-attempts limit in any other learning support area. If approved, the student may enroll in learning support courses only. Credit earned at other institutions during a mandatory exclusion period will not transfer back to Columbus State University.

Reinstatement on Learning Support probation

A student may apply for reinstatement on Learning Support Probation after the mandatory period of dismissal has expired, as stated above. The application must reach the Admissions Office by the published application deadline for the semester. Students must satisfy the conditions of the reinstatement before they will be eligible to register for classes the following term.

Class Attendance and Withdrawal

The attendance policy for classes is established by the individual faculty member. If an instructor does not provide a written policy statement during the first week of classes, a student is permitted to accumulate a total of nine (9) hours of absences in a three credit-hour course without exclusion. An instructor may exclude a student and assign the grade of "WF" upon accumulation of 10 or more hours of absences, or the equivalent in courses carrying fewer credit hours.

Course Withdrawal

Students wishing to drop a course after the last official day of the schedule change period must officially withdraw from the course through CougarNet. Prior to the W grade deadline, as listed on the CSU website, a grade of W will be assigned by the registrar unless the instructor has already assigned a WF grade for excessive absences. A student initiating a withdrawal after the published deadline will automatically receive the grade of a WF. A student may appeal the WF grade if documentation of non-academic hardship is provided. Students may not withdraw from a required learning support course with a grade of W while remaining in degree level courses. To remain in degree level courses, the learning support withdrawal grade will be WF and will count as a learning support attempt. Refer to the CSU website for specific dates and additional information regarding course withdrawals.

Student Medical Withdrawals

A student may be administratively withdrawn from the university when in the judgment of the Dean of Students, and after consulting with appropriate University officials, such as the Director of Student Health Services and/or the Director of the Counseling Center, it is determined that the student suffers from a physical, mental, emotional, or psychological health condition which poses a significant danger or threat to the themselves, others or the University. Also, a student may request a medical withdrawal through the office of the Dean of Students. Appeals concerning administrative withdrawals or a denial of a student's request for a medical withdrawal should be directed to the Vice President of Student Affairs. In emergency situations, a decision on medical withdrawals may be made at the judgment of University officials, but review of the decision may be made at the student's request.

Center for Academic Support and Student Retention

The Center for Academic Support and Student Retention promotes student success and retention through programs, services, and courses that support the academic and intellectual growth of the students.

New Student Computer Accounts

Use of a campus computer requires a user account consisting of a username and a password. CINS creates accounts for currently enrolled students at the beginning of each semester based on information in ISIS such as name, CSU ID, and enrollment status.

Students are divided into “last name CONTAINERS” which are based on the first letter of a student’s last name. If a student’s last name is Smith, the user is in the .s container. If a student’s last name is Jones, that student is in the .jkl container.

.ab	.cd	.efg	.hi	.jkl	.mn	.opqr	.s	.tuv	.wxyz
-----	-----	------	-----	------	-----	-------	----	------	-------

Student login information:

Username: lastname_firstname.container Example: Doe_Jane.cd

Password: DDMMYY (Student’s date of birth) Example: June 5, 1984 = 050684

Students are required to change their password at the first login and every 60 days afterwards. Keep in mind that the same password cannot be used twice. If a student does not change his/her password when prompted, the system locks the account. The Computer Helpdesk (see hours and contact info above) can unlock accounts.

Reminders: Only currently enrolled students are issued a login username and password for use in CSU’s computer labs. Do not use another student’s account to login. The data relating to your print credits, e-mail, etc. are tracked by your username.

CSU Libraries

Columbus State University maintains two libraries: the Simon Schwob Memorial Library on the main campus and the Music Library at CSU's RiverPark campus in the RiverCenter for the Performing Arts. The staff of the CSU Libraries is comprised of library faculty and staff members who work to provide quality service for all library users. The libraries strive to contribute to the enhancement of student learning and make both libraries the intellectual hubs of their respective campuses.

Schwob Library (Main Campus)

Located in the center of the CSU campus, the Schwob Library serves as CSU's premier information resource. In addition to a collection of more than 370,000 volumes, the Schwob Library provides:

- A well-staffed Information Commons (28 computers) for one-stop information shopping (includes research and computer assistance)
- A computer lab (16 computers) with b/w, color and transparency printing, scanner and CD burner
- A PowerPoint practice room
- The Reading Room, an area for individual study
- Group and individual study rooms on the second and third floors
- Photocopiers for print (b&w and color) and microfilm
- The NewsStand, a cozy reading area with comfortable lounge chairs
- The ETC, which houses audiovisual equipment for viewing slides, watching videos and listening to CDs
- The CSU Archives, which houses documents and published materials relating to the history of the University and of Columbus and the surrounding area
- The Instructional Technology Services Department, where a student may inquire about securing equipment (computer, data projector, etc.) for a class presentation. In this case, the student's professor must make the actual booking arrangements at least 24 hours in advance

Note that in the Schwob Library, beverages in screw-top, spill-proof, plastic containers are allowed.

Music Library (RiverPark Campus)

Music Library is CSU's first departmental library. This facility houses the libraries' music collection, including books, periodicals, sound recordings, CDs and videos related to music. General Information

The CSU Libraries offer a variety of services to assist students in their research activities, including:

- GALILEO, Georgia's web-based collection of over 150 electronic databases, available in both CSU libraries and in campus labs. GALILEO is also available off campus via a password (available through a student's GIL account; see <https://gil.colstate.edu>) or automatically via CougarNet sign-in.
- In addition to databases purchased by GALILEO, CSU students also have access to a large assortment of CSU-purchased databases. These are accessible through the GALILEO web page and are identified in the GALILEO A-Z Database list by a CSU icon.
- GIL, the CSU Libraries' online catalog, which provides access to all its collections.

Through GIL, a student may:

- Check to see if the library owns a particular book or journal
- Check to see if a professor has a particular item on reserve
- Check his/her account to see what items he/she has checked out
- Renew items currently checked out (unless requested by another patron)
- 3-week loans of circulating materials, To check out library materials a student must present a valid CSU ID. Books may be checked out for a period of three weeks and may be renewed two times via computer (GIL account), by phone, or in person, unless requested by another patron. Overdue fines are charged to encourage prompt return of borrowed items. Charges for library fines and fees are posted at the circulation desk and on the library web page at http://library.colstate.edu/about_us/departments/circulation/circ_policy.asp
- GIL Express, an innovative resource-sharing service offered at all libraries within the University System of Georgia (USG). The service allows CSU students access to all eligible circulating material at all USG libraries. GIL Express is available to CSU students online and on site (walk up). To use this system, search the USG Universal Catalog at <https://giluc.usg.edu>. To order an item, first locate a record for the item in the catalog, then simply click "GIL Express Request" at the top of the screen and fill in the required information. Once you submit a request, the item should arrive within 3 to 4 days. The circulation staff will notify you of the arrival via phone
- Interlibrary Loan (ILL), a service which borrows books and obtains copies of journal articles from other libraries for students – usually at no charge
- A web site located at <http://library.colstate.edu> that provides quick access to GALILEO, GIL and other electronic resources, as well as to information on library services, policies and other matters

Reserve Officers' Training Corps

Columbus State University, in conjunction with the Department of the Army, maintains a Department of Military Science to acquaint students with the Army, its role in society, and fundamentals of leadership and management. ROTC aids students in developing those abilities and attitudes which will make them academically successful. The ROTC program is designed to train students to become well-educated junior officers for the active Army, the Army National Guard, and the Army Reserve. Students may elect to take the first two years of academic instruction without any military obligation. Students who want to pursue a commission in the Army Officer Corps and who meet eligibility requirements may continue to take the last two years of ROTC instruction and be commissioned as second lieutenants upon graduation. Students who missed the first two years of Army ROTC can receive credit for the Basic Course requirements by attending a 32-day Leaders Training Course at Ft. Knox, Kentucky, between their sophomore and junior years. Those who have prior military experience or three years of JROTC can also receive credit.

The ROTC program offers two, three, and four-year scholarships for students enrolled in or contemplating enrolling in ROTC. These scholarships pay for tuition and fees or room and board and \$600 per semester for books and supplies. Scholarship students and all cadets enrolled in the last two years of the program also receive up to \$5000 per year in subsistence allowance.

For additional information contact the ROTC department, in Stanley Hall Room 102, or call 706-568-2449 or 706-568-2058.

Testing Center

The Testing Center is located on the second floor of the Elizabeth Bradley Turner Center. The Center conducts all institutional testing for prospective and current students, such as COMPASS placement and exit exams, the Institutional SAT, Math Placement test, History Proficiency tests, Communication Technology Skills and Information Literacy tests, College Level Examination Program (CLEP) exams, Regents' Test, and the Outcomes Assessment. The Testing Center also administers national exams, such as the SAT, MAT, and CHES. The Center provides proctoring services for CSU students enrolled in eCore courses, and for students of other institutions enrolled in various types of independent study and professional development courses. The Testing Center also operates a Prometric Testing Center, which delivers academic and professional licensing and certification exams such as the GRE, CPA, MCAT, and FINRA exams, among many others.

STUDENT SERVICES

Columbus State University offers a number of services to students that are not always apparent unless a student needs assistance in solving special problems. The staff encourages all students to seek assistance when needed.

The Career Center

The Career Center, located in 147 Davidson Center, connects students with career choices and community opportunities. The Center provides students and alumni with career/job information, current employment contacts (on and off campus), and experiential education opportunities. Students have acknowledged that the Career Center has everything they need for their job search. This includes computers and software for developing resumes and conducting job searches; seminars on resume writing, interview skills, and success at a job fair; free newspapers; job postings; a schedule of on-campus recruiter visits; and personnel to assist the student.

The Career Center is also the place to connect with the community through volunteer service, internships, and cooperative education. The popular Volunteer Opportunities Fair is sponsored by the Center and held on campus each Fall semester.

On-campus recruiting includes the annual Careers Expo held each Spring semester which attracts a variety of employers who come to network with students and grads. All students at all levels are invited and encouraged to attend. At various times during the year, employers provide information tables on campus to provide students with valuable guidance and to recruit for open positions. Inherent in these objectives is the need to encourage the development of new and useful scholarly material and the publication of such work. Such activities (1) contribute to the professional development of the individual staff members involved, (2) enhance the reputation of the university, (3) provide additional educational opportunities for participating students, and (4) promote the general welfare of the public at large.

Columbus State University acknowledges that faculty, staff, and students of the university regularly prepare for publication articles, pamphlets, books, and other scholarly works that may be subject to copyright and which may generate royalty income for the author. With the advent of innovative techniques and procedures, the variety and number of materials which may be created in a university community have increased significantly causing the ownership of such copyrightable materials to become increasingly complex.

Accordingly, Columbus State University does hereby establish the following policy with respect to copyrights and copyrightable materials resulting from the work of its faculties, staff, and students. Copyrightable material includes the following:

1. Books, journal articles, texts, glossaries, bibliographies, study guides, laboratory manuals, tests, and proposals;
2. Lectures, musical or dramatic composition, and unpublished scripts;
3. Films, film strips, charts, transparencies, and other visual aids;
4. Video and audio tapes and cassettes;
5. Live video or audio broadcasts;
6. Programmed instruction material;
7. Computer program documentation, and
8. Other materials or works which qualify for protection under the copyright laws of the United States or other protective statutes whether or not copyrightable thereunder.

Determination of Rights and Equities in Copyrightable Materials

Copyright considerations apply in the following four instances: (a) individual efforts, (b) university-assisted individual efforts, (c) university-assigned efforts, and (d) sponsor-supported efforts.

A. Individual Efforts

Copyright in materials produced by members of the university shall vest exclusively in the member(s) if there is no significant use of university personnel or facilities (libraries excluded) and the materials are not prepared in accordance with the terms of a contract or grant or as a specific assignment. A faculty member's general obligation to produce scholarly and creative works does not constitute a specific assignment. When it is clear that work is "individual effort" as defined above, no written agreement is required. Questionable items should be referred to the Copyright Committee for a written determination.

B. University-Assisted Individual Efforts

Copyright in materials produced by members of the university shall vest jointly in Columbus State University and the member of Columbus State University if there is significant support of an individual's effort by use of university personnel or facilities (libraries excluded) and the materials are not prepared in accordance with the terms of a contract or grant or as a specific assignment. Division of income from royalties and other use shall be agreed upon in writing by members of Columbus State University and appropriate administrative personnel in accordance with policies of the Copyright Committee in advance of the use of the university's personnel or facilities.

C. University-Assisted Efforts

Copyright in materials produced by members of Columbus State University shall vest in the university if the university has assigned the employees the writing or production of the specific materials. Sharing of royalty income with the author is authorized as an incentive to encourage further development of copyrightable materials.

D. Sponsor-Supported Efforts

Rights to copyrightable materials developed as a result of work supported partially or fully by an outside agency through a contract or grant shall be disposed of in accordance with the terms of the contract or grant. In those cases where all rights are vested in Columbus State University or in cases where royalty income is shared between the sponsor and the university, the author may appropriately share in the income. The nature and extent of author participation in royalty income, however, shall be subject to sponsor and Columbus State University regulations.

Administrative Procedures

The VPAA or his or her designated representative shall administer the principles and policies set forth herein, utilizing the University's Copyright Committee as provided herein.

- A. The standing Copyright Committee shall consist of six persons appointed by the president from the general faculty for three-year staggered terms and three members representing the library, the VPAA, and the VPBE. Ad hoc advisors may be added by the chair at any time to consider a particular case if their advice is needed. Five members shall constitute a quorum. The chair shall be designated by the president from the six general faculty members of the Copyright Committee.
- B. Routine cases where the author(s) and the VPAA or designee agree as to classification and handling shall be processed automatically according to the principles and policies set forth herein.
- C. The Copyright Committee shall recommend to the VPAA or other designee in the administration the rights and equities in copyrightable materials in all cases in which questions arise.
- D. Changes to these principles and policies shall be with the recommendation of the Copyright Committee and with approval of the president and the Board of Regents.
- E. Columbus State University shall disclose annually to the Copyright Committee, upon its request, a record of income and expenses from copyrights.
- F. The VPAA shall be responsible for, and that office shall be active in, providing advice and assistance in copyright and related matters to the faculty and staff. Those responsible for carrying out programs which may generate copyrightable materials with full or significant support by Columbus State University or a sponsor shall clarify with the Office of the VPAA in advance any questions with respect to rights, disposition, and income distribution.

- G. It shall be the responsibility of each producer of university-assigned and sponsor-supported copy- rightable materials to consider the desirability of copyrighting and to recommend appropriate action to assure further consideration of copyright when it is desirable. In addition, it shall be the responsibility of each dean, director, and department chair person to consider the possible desirability of copyrighting as programs are initiated, reviewed, and/or renewed and to take appropriate action.
- H. The implementation of the policy is intended to protect the rights of the faculty and Columbus State University and to preserve the historical precedent for individual efforts.

Appeals

Columbus State University personnel shall have a right to appeal the decisions of the VPAA. Appeals shall be made to the president of Columbus State University. University personnel may, in accordance with Article IX of the By-Laws (Appendix ID) of the Board of Regents, apply to the Board of Regents for a review of a decision of the president.

Policy Conflict

In the event of a conflict between this policy and the official copyright policy of the Board of Regents, the latter shall prevail.

Columbus State University Patent Policy

Preamble

Columbus State University is dedicated to teaching, research, and the extension of knowledge to the public. The personnel at the university recognize as two of their major objectives the production of new knowledge and the dissemination of both old and new knowledge. Inherent in these objectives is the need to encourage the development of new and useful devices and processes and the publication of scholarly works. Such activities (1) contribute to the professional development of the individual staff members involved, (2) enhance the reputation of the institutions concerned, (3) provide additional educational opportunities for participating students, and (4) promote the general welfare of the public at large.

Patentable inventions and materials often result from activities of the faculty and other employees who have been aided wholly or in part through the use of facilities of the institution. It becomes important, therefore, to ensure the utilization of such inventions for the public good and to expedite their development and marketing. The rights and privileges, as well as the incentive, of the inventor must be preserved so that his/her abilities and those of other employees of the university may be further encouraged and stimulated.

The foregoing considered, Columbus State University does hereby establish the following policy with respect to patents and patentable inventions resulting from the work of its faculty, staff, and students.

Definition of Patentable Materials

As used in this policy the term "patentable materials" shall be deemed to refer to items which reasonably appear to qualify for protection under the patent laws* of the United States or other protective statutes whether or not patentable thereunder.

*"Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title." United States Code Annotated, Title 35, Section 101, as amended.

Determination of Rights and Equities in Patentable Materials

A. Sponsor-Supported Efforts

The grant or contract between the sponsor and the institution, under which patentable materials are produced, may contain specific provisions with respect to disposition of rights to these materials. The sponsor (1) may specify that the materials be placed in the public domain, (2) may claim reproduction, license-free use, or other rights, or (3) may assign all rights to the institution. In those cases where all rights are vested in the institution or in cases where royalty income is shared between the sponsor and the institution, the inventor may appropriately share in the royalty income. The nature and extent of inventory participation in royalty income, however, shall be subject to sponsor and institution regulations.

B. Institution-Assisted Efforts

Ownership of patentable material developed as a result of assigned institutional effort shall reside with the institution; however, sharing of royalty income with the inventor is authorized as an incentive to encourage further development of patentable materials. Any patentable materials will be considered as having been developed as an assigned duty when conception and/or development is in the area of principal competence for which the individual is employed.

C. Institution-Assisted Individual Effort

Joint rights of ownership and/or sharing of royalty income, shall be ensured where the institution provides any support of an individual's effort resulting in patentable materials by the contribution of faculty or staff time, facilities, or institutional resources.

D. Individual Effort

Ownership of patentable material generated entirely on personal time and solely as a result of individual initiative and not as an institutional assignment and/or employment responsibilities nor involving the use of System facilities or institutional resources shall normally reside with the inventor.

Patent Committee

A. The VPAA or his or her designated representative shall administer the principles and policies set forth herein, utilizing the University's Patent Committee as provided herein.

1. The standing Patent Committee shall consist of six persons appointed by the president from the General Faculty for three-year staggered terms and three members representing the library, the VPAA, and the VPBE. Ad hoc advisors may be added by the chair at any time to consider a particular case if their advice is needed. Five members shall constitute a quorum. The chair shall be designated by the president from the six general faculty members of the Patent Committee.
2. Routine cases where the inventor and the VPAA or designee agree as to classification and handling shall be processed automatically according to the principles and policies set forth herein.

B. The Patent Committee shall recommend to the VPAA or other designee in the administration the right and equities in patentable materials in all cases in which questions arise.

1. Changes to these principles and policies shall be made after consultation with the Patent Committee and with the approval of the president and the Board of Regents.
2. Columbus State University shall disclose annually to the Patent Committee a record of income and expenses from patents, upon its request.

3. The VPAA shall be responsible for, and that office shall be active in, providing advice and assistance in patent and related matters to the faculty and staff. Those responsible for carrying out programs which may generate patentable materials with full or significant support by Columbus State University or a sponsor shall clarify with the Office of the VPAA in advance any questions with respect to rights, disposition, and income distribution.
4. It shall be the responsibility of each producer of university-assigned and sponsor-supported patentable materials to consider the desirability of patenting and to recommend appropriate action to assure further consideration of a patent when it is desirable. In addition, it shall be the responsibility of each dean, director, and department chair to consider the possible desirability of patenting as programs are initiated, reviewed, and/or renewed and to take appropriate action.

Implementation of the Policy

The implementation of the policy is intended to protect the rights of the faculty and Columbus State University and to preserve the historical precedent for individual efforts.

Columbus State University personnel shall have a right to appeal decisions of the VPAA to the university president. University personnel may, in accordance with Article IX of the By-Laws of the Board of Regents, apply to the Board of Regents for a review of a decision of the president.

In the event of a conflict between this policy and the official patent policy of the Board of Regents, the latter shall prevail.

In the implementation of its policies and procedures, Columbus State University retains the right to elect, through its Patent Committee and with the approval of the president, any of the following courses:

- A. To develop and manage its licensing program through an independent patent assistance organization so as to secure competent evaluation of inventions or discoveries, expeditious filing of applications for patents and aggressive licensing and administration of patents; or
- B. To develop and manage its licensing program through an affiliated non-profit corporation such as the Georgia State University Foundation, Inc., the Georgia Tech Research Institute, or other nonprofit organizations established for this purpose; or
- C. To develop and manage independently its own licensing program; or
- D. To release an invention to which the institution has title or an interest to the inventor for management and development as a private venture after the execution of an agreement providing for the division of royalty income produced.

Hazing

Hazing by definition is: "Any action taken or situation created, intentionally, whether on or off fraternity premises, to produce mental or physical discomfort, embarrassment, harassment, or ridicule. Such activities may include but are not limited to the following: use of alcohol; paddling in any form; creation of excessive fatigue, physical and psychological shocks; quests, treasure hunts, scavenger hunts, road trips or any other such activities carried on outside or inside of the confines of the chapter house; wearing of public apparel which is conspicuous and not normally in good taste; engaging in public stunts and buffoonery; morally degrading or humiliating games and activities; and any other activities which are not consistent with academic achievement, fraternal law, ritual or policy or the regulations and policies of the educational institution, or applicable state law."

While hazing is typically associated with organizational candidacy whereby one is attempting to prove and / or earn initiation privileges, it is sometimes used as a method of pre-membership bribery. Such acts are also illegal as they may impose the same mental, emotional and / or physical anguish upon an individual and will be considered

equally offensive. Sanctions for such acts may be severe as administration will endorse the Student Rights and Responsibilities in accordance with university policy and the law respectively. Sanctions mandated by administration within the Offices of Student Life and Dean of Students could include community service, loss of facility privileges, loss of membership within said organization, temporary or permanent disbandment of organization from campus, arrest or others not listed. The Offices mentioned above work collectively in such cases to determine the appropriate course of action based on severity of the offense.

Sexual Assault

Introduction

Columbus State University is opposed to sexual assault, and such behavior is prohibited both by state law and by university policy. The university affords certain rights to campus members who have been sexually assaulted. These rights include assistance in reporting the crime and in securing counseling and health services. Accused persons are subject to arrest, incarceration, and prosecution through the court system. As campus members, accused persons are subject to university judicial proceedings that may result in permanent expulsion or dismissal from Columbus State University.

Campus action may proceed independently of action by local, state or federal authorities.

Columbus State University offers information regarding the prevention of sex offenses through its University Police Department. To obtain the information, contact University Police at (706) 568-2022.

Definition

Columbus State University defines sexual assault as offenses, which include, but are not limited to rape, aggravated sodomy, statutory rape, sexual battery and aggravated sexual battery as they are defined in chapter six (6) of the "Official Code of Georgia Annotated". Sexual assault includes any physical sexual contact with a person who is unable to consent. A person who is unable to consent includes, but is not limited to: (1) an unmarried person, under the age of 17; (2) a person who is physically helpless (i.e., unconscious or incapable of communicating an unwillingness to engage in an act); or (3) a person who is mentally incapacitated (i.e., one rendered incapable of knowing or controlling his or her conduct, or incapable of resisting an act, due to the influence of any drug, narcotic, anesthetic, alcohol, or other substance; or one who is lacking in sufficient capacity to understand and appreciate the act, its implications, and consequences).

The Policy

Sexual assaults should be reported immediately to University Police if the assault occurred on campus or to local law enforcement if the assault occurred off campus. Staff of the Counseling Center, the Student Health Center, or University Police can assist the campus member with reporting the crime. Reporting sexual assaults may reduce the possibilities of future assaults and continued criminal behavior by the accused. A campus member who is accused of sexually assaulting another campus member is subject to criminal and civil prosecution in a court of law, and is also subject to proceedings which may lead to disciplinary action by Columbus State University.

If the assaulted campus member decides to initiate criminal proceedings, the completing of a sexual assault kit is vital for any subsequent legal action. It is also important that the campus member report the assault immediately to law enforcement officials. University Police officers will be available to transport Columbus State University members from campus to a local hospital emergency room for a medical evaluation and to have evidence of the assault collected by the hospital staff.

When campus officials are notified of a sexual assault, a staff member from the

Counseling Center will be contacted. At that time, the campus member will get help defining what happened and deciding what, if anything, to do next. The campus member will have the opportunity to speak with someone who can explain various options. The campus member has the right to file criminal charges with the appropriate prosecutor's office, and to receive assistance from the Counseling Center.

If the accused party is a student and the assaulted person decides to file charges on campus, a written statement of the incident must be submitted to the Office of Student Affairs. An administrator in the office of the Dean of Students will meet with each party individually, review the individual statements, conduct an investigation, and direct the appropriate disposition of the case.

If the accused is an employee and the assaulted person decides to file charges on campus, a written statement of the incident must be submitted to the director of human resources. The director of human resources will meet with each party individually, review the individual statements, conduct an investigation, and make a recommendation as to a disposition of the case.

Rights of the Parties

In a judicial hearing, all parties have rights. These rights are outlined in the appropriate grievance and hearing procedures.

Security Issues

If it is determined that a person is potentially dangerous to others, then that person may be removed from the university and subject to revocation of university privileges.

A campus member will have options for, and assistance in, changing academic classes, university housing, and/or university working situations after an alleged sexual assault incident if such changes are warranted and reasonably available.

Sexual Harassment

Columbus State University is committed to creating and maintaining a University community in which all persons can work and learn together in an atmosphere free of all forms of harassment. Therefore, sexual harassment within the Columbus State University community is expressly prohibited.

Each member of the academic community at Columbus State University is expected to respect the dignity and worth of all other members of the community and to refrain from any conduct that could give rise to a charge of sexual harassment. Persons who engage in sexual harassment shall be subject to disciplinary action, to include dismissal or exclusion when warranted.

Definition

Sexual harassment is created by unwelcome sexual advances, requests for sexual favors or other conduct of a sexual nature when:

- Submission to such conduct is made explicitly or implicitly a term or condition of an individual's employment or status in a course, program or activity
- Submission to or rejection of such conduct is used as a basis for a decision affecting an individual's employment or participation in a course, program or activity
- Such conduct unreasonably interferes with an individual's work or academic performance or creates an intimidating, hostile or offensive working or academic environment. Regardless of intent, it is the effect and characteristics of behavior which determine whether the behavior constitutes sexual harassment.

Complaint Procedure

Any member of the Columbus State University community who believes that he or she has been sexually harassed is encouraged to bring the matter to the attention of the Affirmative Action/Equal Opportunity Officer or the Director of Human Resources (568-2005). Likewise, if anyone in a supervisory capacity is made aware of such a

complaint, he or she must bring the matter to the attention of the Affirmative Action/Equal Opportunity Officer or the Director of Human Resources. No person shall be reprimanded or discriminated against in any way for initiating an inquiry or complaint in good faith. Columbus State University's objective is to take whatever action may be needed to prevent, correct, and if necessary, discipline persons whose behavior violates this policy.

Consensual Relationships Policy

Within the university setting, faculty and supervisors exercise significant power and authority over others. Therefore, primary responsibility for maintaining high standards of conduct resides especially with those in faculty and supervisor positions. It is the University's position that it is unwise and inappropriate for members of the faculty to have romantic relationships with students whom they teach, and for supervisors to have romantic relationships with employees who they supervise, even in cases where there is, or appears to be, mutual consent. The faculty/student and supervisor/employee relationship should not be jeopardized by question of favoritism or fairness in professional judgment. Furthermore, whether the consent by a student or employee in such a relationship is indeed voluntary is suspect due to the imbalance of power and authority between the parties.

All members of the university community should be aware that initial consent to a romantic relationship does not preclude the potential for charges of conflict of interest, or for charges of sexual harassment arising from the conflict of interest, or for charges of sexual harassment arising from the conflict of interest, particularly when students and employees not involved in the relationship claim they have been disadvantaged by the relationship. A faculty/staff member who enters into a romantic and/or sexual relationship with an employee and/or student under his or her supervision, must realize that if a charge of sexual harassment is subsequently lodged, it will be exceedingly difficult to prove blamelessness on grounds of mutual consent.

In order to prevent the conflict of interest created by a consensual sexual or romantic relationship, Columbus State University required that the participants in such a relationship act immediately to remove the conflict of interest. Those who require clarification of this policy or the definition of a relational conflict of interest, or who require guidance in removing the conflict of interest are encouraged to contact the AA/EEO Office or the Human Resources Director. Failure of the supervisor/faculty member to remove the conflict of interest may lead to disciplinary procedures, including termination of employment. This policy is superceded by laws governing ability to consent based on age.

Smoking

Smoking is prohibited in all University facilities, athletic stadiums and vehicles. Smoking is prohibited within 20 feet of any facility or stadium entrance or exit. This includes the covered entrance at University Hall and both levels of the covered walkways of Arnold Hall, Howard Hall, Tucker Hall and Faculty Office Building.

CAMPUS ORGANIZATIONS

Students are encouraged to participate in campus organizations. The following organizations have provided information to assist individuals in the selection of activities best suited to their interests. The Office of Student Life & Development is available to refer students to campus organizations of their choice. Persons interested in forming new campus organizations should contact the Office of Student Life in 271 Davidson Center at 568-2273.

Organization Advisors

Every organization is required to have a campus advisor. This person should be both an advocate for the organization as well as the Student Life Office. This person should work in collaboration with the Student Life Office and offer sound, ethical direction to the organizations. The Director of Student Activities reserves the right to remove any individual /s who may not be effectively leading the students and / or fostering a positive relationship with the Office of Student Life & Development.

It is the responsibility of the campus organization to seek a campus advisor. While the university recognizes that some organizations also have a community member serving in an advisor's capacity, it is the university faculty or staff member who will be regarded as the primary contact and responsible advocate for the organization.

Clubs and Organizations.

In order to become a recognized organization, the students involved must submit a registration packet to the Student Life Office and be approved by the Student Government Association. Once approved, there is an annual registration renewal that is to be submitted along with the Organizational Declaration to the Student Life Office.

CSU Jaycees

We build leadership skills for young people through community service projects. The United States Junior chamber has one simple premise: "WE HELP PEOPLE!" To that end, chapters large and small, in communities from rural America, college campuses, and to our metropolitan centers work hard on specific projects geared to making life in that area better. From playgrounds for children, to large-scale fundraising efforts, these projects are the key reason motivated men and women have chosen to join the organization.

One of the few organizations you can take with you after college. When you graduate, your membership can be transferred to one of 40 other Jaycee chapters in Georgia. You can even transfer membership to other states and countries through the Junior Chamber International.

Opportunity to compete in different areas on a local, state, and national levels in several different areas is but one facet of the Jaycees. Check us out on www.columbusjaycees.com. We may be just what you are looking for. The CSU chapter meets on the 2nd & 4th Thursdays, at 7:30 pm.

Methodist Campus Ministry

While strolling around CSU's campus, you may be puzzled upon seeing several students wearing t-shirts that simply say “college.” Upon closer observation, however, you might notice that, on the back of their shirt, the word “house” is also prominently displayed. Congratulations! You have met one of the many students involved in the Methodist Campus Ministry at Columbus State University. The “College House” is a

white, two story house located downtown on Second Avenue that is home to this special ministry. Located on St. Luke United Methodist Church's campus, the house provides space for Sunday night worship services, which includes a live (student led) band, time for prayer, and a dynamic message. Also, available throughout the week are bible studies and lunch every Thursday at noon. Because of its proximity to CSU's downtown campus, the "College House" also provides a place for busy students to relax and unwind between classes and work schedules. As the "College House" T-shirts make their circulation around the CSU campuses, more and more students are becoming actively involved in the Methodist Campus Ministry. The "College House" provides a space where students can fellowship with other Christians, and, most importantly, grow in their daily walk with Christ. FRATERNITIES AND SORORITIES

Board of Regents Participation Policy

Students enrolled in remedial courses shall not participate in fraternity or sorority recruitment (Rush) of any kind until they have met the following requirements: completed required remedial courses, have a minimum 2.0 grade point average, and completed 30 semester hours applicable towards a degree. Students enrolled in remedial courses shall not go forth with any pledgeships/candidacies/lines, etc., or participate in any related activities. Should this occur, both the student in question and the chapter will be dealt with appropriately. All students interested in Greek membership must be approved by the Director of Student Life & Development prior to attending any recruitment function. Students interested in pledging an organization must be enrolled a minimum of half-time in courses. Some organizations require students be enrolled full time or three quarters of the time. Legacies who are enrolled in remedial courses are not excluded from this policy.

Hazing Policy for Fraternities & Sororities

Hazing by definition is: "Any action taken or situation created, intentionally, whether on or off fraternity premises, to produce mental or physical discomfort, embarrassment, harassment, or ridicule. Such activities may include but are not limited to the following: use of alcohol; paddling in any form; creation of excessive fatigue, physical and psychological shocks; quests, treasure hunts, scavenger hunts, road trips or any other such activities carried on outside or inside of the confines of the chapter house; wearing of public apparel which is conspicuous and not normally in good taste; engaging in public stunts and buffoonery; morally degrading or humiliating games and activities; and any other activities which are not consistent with academic achievement, fraternal law, ritual or policy or the regulations and policies of the educational institution, or applicable state law."

While hazing is typically associated with organizational candidacy whereby one is attempting to prove and / or earn initiation privileges, it is sometimes used as a method of pre-membership bribery. Such acts are also illegal as they may impose the same mental, emotional and / or physical anguish upon an individual and will be considered equally offensive. Sanctions for such acts may be severe as administration will endorse the Student Rights and Responsibilities in accordance with university policy and the law respectively. Sanctions mandated by administration within the Offices of Student Life and Dean of Students could include community service, loss of facility privileges, loss of membership within said organization, temporary or permanent disbandment of organization from campus, arrest or others not listed. The Offices mentioned above work collectively in such cases to determine the appropriate course of action based on severity of the offense.

Recruitment

Columbus State University recognizes the academic year for fraternity and sorority recruitment. All Greek organizations are restricted to recruitment after completion of Spring semester and prior to Fall semester. All organizations wishing to extend a bid to an individual must complete a copy of a bid agreement provided by the Greek Advisor in order to accurately approve eligibility of all new members. As of Spring 2004, the university stipulates that any student wishing to pledge a Greek organization must be enrolled at least half time / 6 semester hours. Should a national organization dictate their own enrollment policies, the University will acknowledge and honor those guidelines as long as they are equal to or greater than that of CSU. Please refer to the Board of Regents Policy above for clarification of any students wishing to join a Greek organization who is enrolled in remedial courses.

Organizational Rosters

During the second week of each semester, each organization is required to provide the Office of Student Life & Development a typed copy of each active and inactive member with social security numbers. This information will be used for reports and other institutional purposes. Upon completion of any rush activity, a typed list of potential new members shall be provided to the Office of Student Life & Development. Each roster should have a date at the top to insure that all rosters are current. Any organization failing to provide this information is subject to denial of facility privileges (or possibly an administrative hold on members records) until the proper documentation has been provided.

Phi Mu

On January 4, 1852, Mary Ann DuPont (Lines), Mary Elizabeth Myrick (Daniel) and Martha Bibb Hardaway (Redding) founded an organization called the Philomathean Society at Wesleyan Female College in Macon, Georgia. Wesleyan was the first institution to grant college degrees to women. For the next two months the Founders were busy gathering additional members, creating a constitution, devising an initiation service and

adopting a secret and an open motto. On March 4, 1852, the members announced the formation of their new society, which became the Alpha Chapter of Phi Mu Fraternity. Since that time, March 4 has been observed as Founders' Day.

By the turn of the century, the Philomathean society had developed a strong body of alumnae, a history rich in tradition and the confidence to expand into a national organization. On August 1, 1904, the Philomathean Society was chartered by the State of Georgia as a national organization with the exclusive use of the Greek letters FM and the right to establish additional chapters on other campuses.

Today Phi Mu has grown to encompass a diverse membership of more than 140,000 women nationwide. The local sorority was founded in November of 1997 as Phi Mu Kappa with 10 sisters and became a colony of Phi Mu national in Spring 2000. Phi Mu is involved with many activities on campus including the homecoming celebration. Community philanthropies include the Ronald McDonald House and the American Cancer Society.

Sigma Nu

The Mu Xi Chapter of Sigma Nu was chartered in May of 1996 as the 267th Chapter of Sigma Nu. Since that time the chapter has gone on to initiate over 127 men bound together by the ideals of love, truth, and honor. The men of Sigma Nu are heavily involved in campus and community life. Each year Sigma Nu logs 100's of hours of community service through Country's Midnight Run to Benefit the Blind, Special Olympics, Historic Columbus' Riverfest Fundraiser, and various other charity work. The men of Sigma Nu are renowned for their abilities in intramural sports. Throughout each semester Sigma Nu works with the sororities to plan various mixers and other social events. The men of Sigma Nu strive to find other upstanding men to join our sacred brotherhood. If you are interested in learning more about Sigma Nu, go to our website www.sigmanu.org or visit the Office of Student Life & Development, Davidson 271.

Tau Kappa Epsilon

Tau Kappa Epsilon is a brotherhood of men who support each other's mental, moral, and social development. Since its founding, more than 240,000 men of good character have become members. We currently operate Chapters and Colonies on 272 college campuses across the United States and Canada, which makes us the largest college social fraternity in the world. Over 300 men from Columbus State have become brothers in TKE.

The Founders of the Knights of Classic Lore desired an organization different from those represented by the existing fraternities. Their desire was to establish a fraternity in which the primary requisites for membership would be the personal worth and character of the individual rather than the wealth he possessed.

Twenty-seven scholarships are available to the members of Tau Kappa Epsilon where we value scholarship, character, leadership, teamwork, service, and brotherhood. We aim to make a positive difference in society, and become better people in the process. Find out more at – www.tke.org

STUDENT RIGHTS AND RESPONSIBILITIES

I: Introduction

Columbus State University exists to serve the higher education needs of those students who qualify for admission. The essence of higher education is found in the unhampered freedom to study, investigate, write, speak and debate on any aspect or issue of life. In attempting to achieve that unhampered freedom, the students acquire certain fundamental rights and responsibilities. These rights and responsibilities, as defined below, are considered an integral part of the educational process at Columbus State University. Any additional rights or responsibilities may be promulgated under established procedures during the school year as required for the general well being of the student body and university. A student is expected to follow these rules and the university is expected to enforce them. At the same time, the university is expected to acknowledge the student's rights stated herein and respect the student's autonomy in these areas.

Unfamiliarity is not an excuse for infractions of the regulations. Knowledge of them, on the other hand, can help the student use these rights to the fullest and avoid having others infringe on these rights.

II. Academic Freedom

Academic freedom refers to the rights and responsibilities essential to the task of scholarship in its broadest sense. It extends to the entire academic community, including faculty, students, administrators, and the institution itself. While many rights and responsibilities may be shared simultaneously by every member, the expression of academic freedom requires complementarily and civility. Access to grievance/appeal procedures and to conflict mediation is a basic component of academic freedom available to all members of the academic community.

Columbus State University, within the context of the policies of the Board of Regents of the University System of Georgia, has the authority to determine on academic grounds who may be admitted to study, what may be taught, how it may be taught, and who may teach. Administering these fundamental freedoms involves all members of the academic community.

III. Student Rights

Students have the right to learn and to inquire. They have a right to examine and discuss questions of interest, to take stands on issues, and to support causes, by orderly means which do not impede the collegial process of learning.

Students have corresponding obligations to be honest in performing their academic work, to be punctual in their assignments, and to cooperate in the process of teaching and learning.

Students shall have the right to take stands on issues, the right to examine and discuss questions of interest to them, and the right to support causes, by orderly means which do not disrupt the regular and essential campus operation.

Recognized student organizations shall be allowed to invite and to hear any person of their own choosing for the purpose of hearing that person's ideas and opinions. However, the University President has final responsibility for campus events and activities and may affirm or cancel a speaker's appearance. Scheduling of such events shall be made through the Office of the Dean of Students to ensure that there is orderly scheduling of facilities and observance of University regulations. This requires filing a registration form one week before the speaker is to appear (see section on speakers). The Dean of Students does not approve or disapprove, but may specify the time, location, or place.

Students shall have the right to have their academic records kept confidential.

Disciplinary records are subject to current state law. All practices and policies dealing with the acquisition and retention of information for records shall be formulated with due regard for the student's right to privacy. No records shall be available to unauthorized persons without the express consent of the student involved except under legal compulsion or in cases where the safety of persons or property is involved. No permanent records shall be kept which reflect any alleged political activities or beliefs of students.

Students shall have the right of protection against prejudiced academic evaluation. At the same time, students are responsible for maintaining the standards of academic performance established by the faculty for each course in which they are enrolled. Any student who believes that individual academic rights have been violated may seek redress by contacting the Director of Judicial Affairs, the Dean of Students, or the Associate Vice President for Academic Affairs for direction in filing a formal grievance.

Individual students and recognized campus organizations have the right to publish and distribute written materials provided that the material is identified by the name of the student or organization, done in accordance with university regulations, and which follows the guidelines established by the publications committee. Student publications shall be guaranteed the rights inherent in the concept of "freedom of the press." The publications committee shall protect those rights and enforce standards of responsible journalism.

IV. Student Responsibilities

The following is an outline of the responsibilities of students, both as individuals and as groups, at Columbus State University. It is the official record of all conduct and traffic regulations, rules affecting student organizations and group activities, and student oriented and administrative policies and procedures. Neither academic nor behavioral misconduct will be tolerated in the Columbus State University community. Any individual found to have violated the standards of conduct outlined below will be subject to the sanctions/remedies listed in Section XVI of this handbook.

A. Academic Misconduct

The university recognizes honesty and integrity as central virtues of academic life and as fully necessary to its very existence. The university also recognizes and accepts that cooperation, discussion, and group studying outside of the classroom are essential elements of the academic experience, and that students may seek assistance in their studies, such as tutoring or peer review.

However, while such practices are acceptable and even encouraged, students must understand the parameters of accountability in their academic performance and need to respect the academic freedom of the faculty.

Therefore, the following regulations are published in the interest of protecting the equity and the validity of the student's grades and degrees, and in order to assist the student in developing standards and attitudes appropriate to academic life:

1. During examinations no student shall use materials not authorized by the instructor.
2. No student or other person shall obtain and furnish to any other student materials which can be shown to contain the questions or answers to any examination scheduled to be given at any date in any course offered by the university.
3. No student shall knowingly receive and use materials, which can be shown to contain the questions, or answers to any examination scheduled to be given at any date in any course offered by the university.
4. No student shall receive or give assistance in preparation of any assignment, essay, laboratory report or examination to be submitted as a requirement for any academic course in such a way that the submitted work can no longer be considered the

personal effort of the student submitting the work. In the case of tutoring, peer review and similar instances of assistance, a special effort must be made to retain this distinction and the integrity of the student's personal performance.

5. In some cases, tutoring may border on academic irregularity; in the case of course requirements for a grade, it is the student's responsibility to clarify the instructor's policy. If the student is uncertain as to the direction of the instructor, it is the student's responsibility to seek clarification from the instructor.
6. Plagiarism is prohibited. Themes, essays, term papers, tests, and other requirements for a grade, must be the work of the student submitting them. When direct quotations are used, they must be indicated, and when the ideas of another are incorporated in the paper, they must be appropriately acknowledged. Term papers, reports, reviews, or other assignments may not be purchased for submission in lieu of the student's own efforts.
7. Any person taking, or attempting to take, steal or otherwise procure in any unauthorized manner any material pertaining to the conduct of a class, including tests, examinations, laboratory equipment, roll books, etc., shall be in violation of these regulations.

B. Behavioral Misconduct

1. Alcoholic Beverages

The drinking, possession, or transportation of alcoholic beverages is discouraged. The conspicuous consumption of alcoholic beverages on campus is prohibited. No policy or regulation of the University sanctions either the use of alcoholic beverages or actions in violation of state, federal, or local laws regarding their purchase or consumption. The University prohibits the serving or consumption of alcoholic beverages at on-campus student activity functions. See Columbus State University's Policy on Drugs and Alcohol.

2. Drugs and Narcotics

The possession of stimulant, depressant, narcotic, or hallucinogenic drugs and other agents having potential for mental or physical abuse, except on a legal prescription, is prohibited, as is the selling, bartering, exchanging, or giving away of such drugs to any person not intended to possess them. Students found to be in violation of this policy can expect, as a minimum, suspension from the University for the remainder of the semester.

Malicious damage, removal, or destruction of property belonging to Columbus State University, its employees, its students, or visitors to the University is prohibited.

VIII. Student Organizations

Columbus State University encourages students in the development of their special interests and talents through participation in student organizations insofar as the aims and objectives of the organizations are consistent with those of the university. The value of student organizations as means of providing opportunities for students to enrich their educational experiences outside of the classrooms and laboratories is recognized by the university. To facilitate the development of constructive student organizations, it is necessary for the academic community to subscribe guidelines and procedures for the orderly and responsible operation of student organizations.

- A. When groups of students wish to establish organizations to promote their common interests, it is appropriate that they seek recognition and approval by the university. In order to start an organization, there must be at least 5 interested students. Procedures for obtaining a charter for new student organizations are available in the Office of Student Life & Development. The essential steps in obtaining charters include:
 1. Filing of a written petition of intent to organize.

2. It is the responsibility of the campus organization to seek a campus advisor.
While the university recognizes that some organizations also have a community member serving in an advisor's capacity, it is the university faculty or staff member who will be regarded as the primary contact and responsible advocate for the organization.
3. Faculty advisor should embody a positive attitude and should maintain positive relations with the student affairs staff as the student advocates.
4. Approval of the petition by the Dean of Students.
5. If, at anytime, the Director of Student Activities feels that an advisor isn't acting in the best interest of the organization and / or Student Life Department, he / she reserves the right to remove and replace the individual from this capacity.
- B. To facilitate communications, to provide necessary services, and to allocate the use of university facilities, all student organizations are required to file an annual registration form with the coordinator of students activities. Organizations failing to satisfy requirements will be considered inactive. Organizations wishing to renew their status should confer with the coordinator of student activities.
- C. It is the responsibility of each organization to inform the Office of Student Life & Development of the names and addresses of new officers and faculty advisors and changes in their constitutions.
- D. Organizations wishing to effect changes in their affiliations must have the approval of the activities committee.

Organizations may seek the assistance of the Office of Student Life & Development in obtaining names of faculty members willing to serve in this capacity.

All officers of student organizations are to be currently enrolled during the terms of their offices, with the exception of the summer term.

- H. Each organization is expected to conduct its affairs in accordance with democratic principles and sound fiscal management. Misappropriation of an organization's funds by officers or members is contrary to these principles and may be considered as the basis for disciplinary action by the university and legal action by the organization against violators. An internal audit should be conducted annually and, in addition, each time there is a change of officers entrusted with organizational funds.
- I. All organizations are expected to conduct their activities in such a manner as to reflect credit on the university. Organizations must comply with all applicable social regulations. Failure to do so may result in revocation of an organization's charter and subject the group and/or individual to disciplinary action.

- B. Training in the aspects of publishing.

- C. Outlets for creative work.
- D. Information about student and faculty activities.
- E. A forum for the free exchange of opinion.

Publications Committee

It is the purpose of the Publications Committee to protect freedom of the press and, at the same time, to foster the standards of responsible journalism. It also recognizes that a university newspaper is read by an audience that extends beyond the campus. With this in mind the committee establishes the following guidelines and procedures concerning controversial matters.

1. Materials that could be classified as libelous. Libel is defined as a false and malicious defamation of another, expressed in print, writing, pictures, or signs, tending to injure the reputation of the person and exposing him to public hatred, contempt, or ridicule.
2. Obscenity and profanity in articles or advertising. Obscenity guidelines include the following:
 - a. whether the average person, applying contemporary community standards would find that the work, taken as a whole, appeals to the prurient interest,
 - b. whether the work depicts or describes, in a patently offensive way, sexual conduct, and whether the work, taken as a whole, lacks serious literary, artistic, political, or scientific value.

This section is intended to be a summary of the detailed sections of the Publications Committee Handbook that will have precedence over this publication if there are discrepancies.

The indiscriminate publication of advertisements, such as those which undermine ethical standards, undermine academic standards, promote sexism or sexist attitudes, encourage bigotry, hate or violence, etc.

Questions: Whenever questions arise, it is the responsibility of the editor to confer with the advisor. If the advisor is unsure about what to do, the advisor can then ask the chair of the Publications Committee to convene the full committee to make a determination. If the editor wishes to appeal the decision of the Publications Committee, such appeal should be made directly to the Grievance Hearing Panel.

Publication Editor Responsibilities

It is the responsibility of the publication editor to see that the following editorial policies are adhered to:

1. Facts should be distinguished from opinion.
2. The editor should check for libelous content before publication.
3. Good faith with the reader is the foundation of all journalism worthy of the name. By every consideration of good faith a newspaper is obligated to be truthful, thorough, and accurate. Headlines should also be fully warranted by the content of the article.
4. Sound practice makes a clear distinction between news reports and expressions of opinion. News reports should be free from opinion of any kind. This rule does not apply to so-called special articles or editorials unmistakably devoted to advocacy or characterized by a signature authorizing the writer's conclusions and interpretations.
5. A newspaper should not publish opinion affecting reputation or moral character without allowing the right of swift rebuttal.
6. A newspaper should not invade a person's privacy unless there is a public right to know as opposed to mere curiosity.
7. It is the duty of a newspaper to make prompt and complete correction of serious mistakes of fact or interpretation, whatever their origin.

8. All submissions must be signed; The Saber will not publish anonymous opinion.
9. Pictures, cartoons, and other devices can be libelous and should be edited with the same discretion used for written work. The advisor and the editor must so instruct the staff that each member will recheck information, cartoons, and other materials to see that these meet legal and ethical standards. Staff members of student publications should review legal information before the beginning of each school year.
10. Faculty, students, or others may submit contributions to student publications, however, editors are not obligated to publish all materials received.
11. Materials of an official nature may be published as a service to the student body.
12. Student publications will bear a prominently displayed statement to the effect that they are student publications.

Advisor Responsibilities

Overview of Responsibilities. The advisor offers advice on the design and format of student publications, assists with business procedures, and encourages quality publications. It is never the advisor's role to proofread or censor the student newspaper.

Legal Awareness. The advisor should bring to the editor's attention the legal and moral responsibilities of any college publications and the fact that the university President may be held responsible for student publications, articles, pictures, ads.

Editor's Qualification. The advisor will ensure that all candidates meet eligibility requirements.

The Staff of Publications

The position of editor will be limited to students who have at least a 2.50 grade point average (GPA), have shown a sincere commitment to The Saber, and have demonstrated journalistic ability.

Except for the editor, all staff members, paid and unpaid, must maintain at least a 2.00 GPA. All other paid and unpaid staff members will be selected by the editor, with the advice of the advisor, on the basis of journalistic ability, interest, initiative, and contribution to the publication.

Staff can be dismissed by the editor. Staff who have been removed from their duties have the right to appeal to the Publication Committee, then to the Grievance Review Board.

The publications committee, with input from the advisor, will have the power to remove from office the editor with "just cause," as defined by the Publications Committee Handbook.

A staff member on The Saber cannot serve simultaneously as an SGA executive officer due to possible conflict of interest.

Election of Editor

The annual election of the editor will be held no later than the second Friday in April and will be supervised by the advisor.

The editor will be elected by a simple majority of staff members eligible to vote. To be eligible to vote, staff must have served since the beginning of the current semester. The current editor in chief will vote only in the case of a tie.

The newly elected editor's term will begin the day after spring graduation.

X. Speakers on Campus

- A. Any student wishing to invite a speaker to Columbus State University must do so through a recognized campus organization. Any student who does not belong to an organization can request the Student Activities Council or Student Government to sponsor the desired speaker. This is so an accountable body on campus will be responsible for the conduct of the speaker and his audience.

- B. Any recognized organization may sponsor speakers of its own choosing upon the approval of the organization's advisor when the audience is limited to members of the organization, currently enrolled students, and faculty and staff. When the speaking engagement is to be open to the general public, or advertised through the public media, the sponsoring organization is to submit a request for the speaker to appear on campus to the Dean of Students who will secure the necessary approval for the desired speaker to appear.
- C. The sponsoring organization is responsible for securing adequate facilities and making all necessary physical arrangements for the speaker. The university reserves the right to limit and determine the time, date, and location of any speaker's appearance on campus.
- D. The University recognizes the rights of freedom of assembly and speech. At the same time, it recognizes its responsibilities for operating and maintaining an orderly educational environment. Requests for speaker approvals will be approved routinely provided suitable physical arrangements can be made and the known presence of the speaker will not disrupt the educational process.

XI. Demonstrations

Students or individuals may wish to show their support or call attention to issues when recognized outlets, such as campus organizations or the student newspaper, are not immediately available for such purposes. These open exchanges of information, opinions, and ideas between students are an essential element of the campus experience. The policies here are intended to protect the interests of all students as well as other members of the University community. These policies presume that students are generally free to engage in freedom of expression activities in those outdoor areas of campus that are common and accessible to all students (such as park-like areas and sidewalks). Although the campus is open to expression activities users are required to make reservations through the Dean of Students Office to prevent conflicting events from trying to use the same space.

Students engaged in freedom of expression activities, on campus may be required to relocate under the following circumstances:

- A. The location selected for the activity is inadequate for the purpose for which it will be used (either too close to buildings, not big enough for the event, etc.);
- B. The activity substantially interferes with either vehicular or pedestrian traffic;
- C. The activity blocks the ingress or egress to buildings;
- D. The space is not available due to a prior reservation;
- E. The activity conflicts with a previously planned university activity;
- F. The activity creates a sustained or repeated noise disturbance that substantially interferes with the normal activities of the university;
- G. The activity presents an unreasonable danger to the health or safety of the applicant or other individuals;
- H. The activity is prohibited by local, state, or federal law; or
- I. The activity prevents fire protection, law enforcement, or emergency medical service providers from access to areas on campus.

XII. Distribution of Advertising Material, Propaganda, and the Like

Columbus State University does not endorse or sponsor campaigns, movements, drives, or the printed or duplicated materials used for persuading a desired opinion and/or action. The exchange, sale, giving for a consideration, bartering, or solicitation of gifts or donations is prohibited by an individual, group of individuals, company or corporation not authorized by the Vice President for Business and Finance. Individuals, groups, companies, or corporations will not be permitted to approach either student or faculty for the purpose of selling goods or services which are for individual benefit and/or consumption.

Individuals, organized groups, and the like wishing to distribute non-university sponsored printed matter, influence opinion or secure certain desired actions are to obtain approval from the Dean of Students, Vice President for Business and Finance, or the Vice President for Academic Affairs as may be appropriate. This permission will specify the area to be used, the hours of the day and will specify the day or days. These regulations do not prohibit the free exchange of ideas whether they be written or in formalized debate. Students and faculty are encouraged to participate in various campus activities and to become informed about current issues on the campus.

Persons who wish to solicit, have a display, or distribute printed materials in the Davidson Center are to secure permission from the Assistant Vice President of Student Affairs on Main campus or with the Dean of Students for the RiverPark campus at that location.

XIII. Posting of Notices and Care of Bulletin Boards

Materials placed on campus bulletin boards or cork strips should be arranged neatly.

Permission should be secured from the appropriate administrative office within the area of the building where the posting is desired. No posting should occur on glass doors in such a manner as to obscure vision. Using paint or other materials that may permanently deface a building is prohibited.

XIV. Student Records Policies and Procedures

The Family Educational Rights and Privacy Act of 1974, as amended, grants students in institutions of higher education the right of access to their education records and preservation of the privacy of these records. In compliance with this act, Columbus State University has established policies and procedures to assure students of their rights under the Act.

Student Access to Educational Records

Any student who is or has been in attendance at Columbus State University will be allowed to inspect and review his/her education records except any items the student has waived his/her right to see, financial information submitted by parents, or information about other students when an education record contains such information. Education records do not include records of instructional, administrative, and educational personnel which are in the sole possession of the maker and are not accessible or revealed to any individual except a temporary substitute; records of the law enforcement unit, student health records, employment records, alumni records, or personal counseling records. Health records and counseling records, however, may be reviewed by physicians of the student's choosing.

Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the students of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed. The review will be granted within a reasonable period of time, not to exceed forty-five (45) days.

When the original record is shown to the student, examination will be permitted only under conditions that will prevent its alteration, mutilation, or loss, including the presence of a representative of the institution. Upon reasonable request by the student, oral explanations and interpretations of the records will be given to the student immediately. When the student desires a written explanation or interpretation, or when it is not practical or appropriate to give an oral explanation or interpretation, the student shall request the explanation or interpretation in writing. The university official will provide the student with a written response to any reasonable written inquiries.

When the education record, or a portion thereof, is not in a form that can be readily reviewed by the student (stored on microfilm, in computer files, etc.), a true copy in understandable form will be provided for the student's inspection and review.

If it is impractical for a former student to inspect and review the records personally, a properly authorized representative of the student may exercise this right on behalf of the student, upon receipt by the institution of an appropriate written, notarized authorization from the student.

Copies of Records to Students

Upon written request and payment of appropriate fees as shown below, students in good standing with the institution will be provided with copies of part or all of their education records, with the exception of transcripts received from other educational institutions and any documents the student has waived his/her right to see. Such documents may be certified as true copies of the education records but will not be embossed with the institutional seal. The name of the institution shall be shown on all copies issued.

Copies of education records may be withheld by the institution when the students are not in good standing because of such conditions as unmet financial obligations and violations of institutional regulations. Such records to be withheld may include, but are not limited to, transcripts, and certifications of student achievement and performance.

Copies of Records to Third Parties at Student's Request

Copies of records that may be released to students may be sent to third parties upon the written request of the student. Such a written request must include:

- 1. A specification of the records to be disclosed;
- 2. A party or class of parties to whom the disclosure may be made;
- 3. The signature of the student and date of request;

Any student may refuse to permit the designation of all the categories of personally identifiable information as directory information by submitting a signed and dated Request to Withhold Student Information Form to the Registrar's Office. Students that choose to have directory information withheld will not appear in the student directory or campus publications, such as dean's list honors, etc. Selecting this option prohibits the Registrar's Office from conducting enrollment verifications of any type since the student information is then considered confidential. Students are encouraged to consult the Registrar's Office FERPA official before selecting the exclusion of directory information to fully understand the ramifications. Students should also note that once directory information is requested to be withheld, it cannot be changed until the Registrar's Office received a request in writing revoking the initial request to withhold information.

Release of Student Information to Third Parties

Disclosure of information contained in the education records of a student to individuals and organizations other than those specifically covered by the Family Educational Rights and Privacy Act shall be limited to items designated as directory information, except upon written, signed, and dated consent of the student.

GEORGIA OPEN RECORDS LAW: As a general rule, documents, papers and records prepared and maintained or received in the course of the operation of a public office or agency are public records within the meaning of the Open Records Law. The right to review or copy these records cannot be denied to any citizen. All records requests should be made in writing to the Director of Judicial Affairs. The director will analyze the scope of the request to determine whether the records requested, or any portion thereof, are required by law to be maintained as confidential. A copying fee of 25 cents per page may be charged. In addition, a reasonable charge may be collected for search, retrieval, and other administrative cost of complying with request for records. Arrangements for inspecting, reviewing, or copying of public records should be made by the director, who should determine an orderly and non-disruptive procedure for permitting access to the documents. Determinations to disclose records will be made on a case-by-case-basis.

Release of Student Information to Institutional Officials

Information from the education records of a student may be disclosed to University officials with a legitimate educational interest. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted such as an attorney, auditor, or collection agent; a person or a student serving on an official committee such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A University official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Correction of Education Records

When a student believes that information in the student's education records is inaccurate, misleading, or violates the privacy or other rights of the student, the student may submit a written request for correction to the University official responsible for creation and maintenance of the record. Such a written request will specify the information being questioned, state the revision requested, state the reasons the student has for disagreeing with the entry in question, and will include (or have attached) any data or information the student has which shows that the record should be revised. The University official will review the request and the appropriate records, and meet with the student if appropriate. The University official will notify the student of a decision within 21 days after receipt of the written request. If the University decides not to amend the

record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the requests for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

The above procedure may be used to question the correctness of the recording of a grade but may not be used to contest the assignment of grade.

Right to File a Complaint

A student has the right to file a complaint with the university's Director of Judicial Affairs concerning alleged failure by Columbus State University to comply with the requirements of FERPA. If the complaint is not resolved by the University to the satisfaction of the student, the student may file a complaint to the Office that administers FERPA: Family Policy Compliance Office, U. S. Department of Education, 400 Maryland Avenue, S. W., Washington, DC 20202-4605.

XV. Judicial Procedures for the Student

Since educational institutions have the responsibility for protecting the educational purposes for which they exist, and for establishing safeguards to insure that those charged with violations of institutional standards on scholarship and behavior are accorded equal protection from unfair disciplinary measures, the following procedures have been established for the resolution of disciplinary problems.

When appearing before either a Hearing Officer or Judicial Body, the accused and accuser are entitled to have a Hearing Advisor present. This Advisor must be from the Columbus State University community and must be a current student or member of the faculty or staff. The Hearing Advisor does not represent the student and is only at the hearing to offer advice and to ensure that a fair hearing occurs. Students and Hearing Advisors will not be allowed to hear deliberation proceedings.

A Hearing Officer is defined as a Columbus State University faculty or staff member who is duly appointed to hear the facts of a matter, make a decision, and issue sanctions when appropriate.

A. Procedures for Alleged Academic Violations

The academic grievance procedure is primarily designed as a route to the resolution of academic or related differences concerning academic fairness, which may arise between a faculty member and a student within a particular course during a single semester/term. This procedure is not available to challenge university policy; although, an alleged improper application of policy may be considered. If there is uncertainty about the appropriate form or direction of a grievance in a particular case, the Assistant Director of Judicial Affairs should be consulted.

Students are responsible for maintaining the standards of academic performance established by the faculty for each course in which they are enrolled. Faculty members are responsible for informing the students in their classes of their requirements for each course that they teach, including attendance policies and methods for course evaluation. Examination situations should be clearly defined, as well as requirements for outside projects or papers, and plagiarism should be carefully defined.

Timeliness of Grievance

Grievances should be addressed in a timely fashion. Academic grievances should be initiated within the semester/term the problem occurs or within the first ten (10) university working days of the next semester/term. The Grievance Review Board may consider extenuating circumstances for any exception to this time limitation. Those circumstances must be beyond the control of the student such as hospitalization or military assignment.

Informal Academic Grievances

Any student who has an academic fairness complaint with a faculty member is encouraged, but not required, to meet with the faculty and/or the faculty member's department chair seeking to resolve the problem informally at the lowest level.

Faculty have a responsibility to post and maintain regular office hours and to make special appointments to meet with students, answer questions concerning course material and attendance records, share the record of a student's grades in the course, explain how particular grades were derived, and to answer questions about examinations within a timely fashion. The faculty is the best authority to explain course requirements and to settle misunderstandings about grades.

Department chairs maintain an open door policy to talk with students. The department chair can assist the student in understanding university or system policy, can direct the student to the times a particular faculty will be available, or attend a meeting with both the student and the faculty. The chair serves as an objective third party acting as a resource to both the student and the faculty. Chairs and deans are responsible for knowing and being able to explain student and faculty rights and responsibilities, as well as, grievance and appeal procedures. The chair will also supply each party with a Student Handbook referring the parties to the section on formal grievances and noting the filing deadline. If the deadline for filing a formal grievance is less than five (5) university working days away, the department chair may write a letter to the Director of Judicial Affairs indicating that significant progress is being made in the informal handling of the case and that the deadline for filing the formal grievance should be extended by an additional ten (10) university working days.

If the department chair is not available within three (3) university working days or if the department chair is the faculty member with whom the student has a complaint, the dean of the college may act as a facilitator as described above. There is no required meeting with the dean.

Formal Academic Grievances

If the informal attempt fails or if the student does not wish to meet informally with the faculty member, the department chair, or the dean, the student may file a formal, written complaint with the Assistant Director of Judicial Affairs. If the Assistant Director of Judicial Affairs is away from campus or has a conflict of interest in the case, the complaint may be filed with the Director of Judicial Affairs, the Associate Vice President for Academic Affairs, or the Dean of Students. Henceforth for the purpose of this policy, any of these three (3-4) administrators who receives a written complaint shall be referred to as the "Judicial Officer."

Due Process for formal academic grievances at Columbus State University includes: 1. written notification of charges(s); 2. the opportunity to review evidence supporting the charge(s); 3. the opportunity to present evidence in response to the charge(s); 4. the right to have an advisor from the university community present during any hearing (sometimes an attorney) Advisors; and 5. unless time extensions have been granted, the right to a written decision based on the evidence within forty (40) university working days from the date of the filing of the formal grievance.

For additional information see the Assistant Director of Judicial Affairs, the Director of Judicial Affairs, the Associate Vice President for Academic Affairs, or the Dean of Students.

eCore Academic Appeals

If a student wants to make a grade appeal for an eCore course, the student should first contact the CSU eCore advisor, located in the Registrar's Office in Enrollment Services. The eCore advisor will provide the necessary steps for the student to submit the grade appeal.

B. Procedures for Alleged Violations of Student Conduct Standards and Non-Academic Violations.

1. The authority to act on alleged non-academic violations or infringements of student rights is vested with the office of the Dean of Students. Violations that occur in areas designated as Residence Life may be handled as an administrative hearing through the office of the Director of Residence Life, in accordance with Residence Life policy and in consultation with the Dean of Students.
2. Minimum requirements for an administrative hearing consist of the student being given notice of the alleged violation(s) and an opportunity to be heard by an appropriate Hearing Officer. However, a Hearing Officer may determine that the student and/or the University may best be served by using the following procedure. The student may also request that these procedures be used.

Procedures for Administrative Hearing:

- k. Any student(s) who has brought charges against another student will have the right to speak to the Hearing Officer in private.

- n. Any student(s) or staff/faculty member who brought charges will be informed of the outcome of the hearing.

Notes: When a student admits to a violation of University rules, the Hearing Officer may ask if the admission is freely given. If questions or doubts arise concerning the validity of the confession, the Hearing Officer can require that witnesses be produced to establish guilt. The Hearing Officer is responsible for making certain that the accused is not using a false claim to avoid penalty.

3. After an administrative hearing, the Hearing Officer will take one of the following actions:
 - a. Assign an appropriate sanction, OR
 - b. The Director of Residence Life may refer the incident to the Dean of Students.
4. Appeals based solely on the assertion of innocence will not be considered. Appeals of the Hearing Officer's decisions may be made under the following circumstances:

- a. A request to introduce new and compelling evidence which was not available at the time of a hearing and which could apparently result in a different final decision;
- b. The specific citation of a violation of due process as it is defined in this policy;
- c. The documentable failure of the decision to comply with specific Columbus State University or University System of Georgia policies;
- d. The documentable error of facts substantial enough to apparently result in a different final decision; or
