Cougars,

I would personally like to welcome you back to campus for the Fall 2014 semester. Your Student Government Association is filled with Senators and Executive Board members who are dedicated to upholding the best interest of every student.

The Student Government Association is the organized voice of each and every student that attends Columbus State University. SGA focuses on protecting the rights of students and advocating on their behalf for the betterment of the University. SGA also serves as a liaison between the students and the administrators on campus.

Entering this school year, I understand that there will be various pending concerns including parking, food services, HOPE, and student fees. As a member of SGA who has influence with important officials such as the Administration and the Board of Regents, I will act as your voice.

We want to encourage you to get involved! We would be so grateful if you attended one of our SGA Forum Meetings, which occur every other Thursday 12:30-1:00 pm in the Davidson Auditorium. If you have a concern, and are unable to attend a meeting, feel free to contact me personally at green_rachel1@columbusstate.edu.

Sincerely,

Rachel Green

Student Government President

ACADEMIC INFORMATION

The Columbus State University catalog is the primary source for academic information concerning grades, class standing, probation, exclusion, and re-admission.

The Director of Admissions and the Registrar are available if assistance is needed in the interpretation of academic regulations.

Admissions Office

The Admissions Office is located in University Hall. Although contact with the Admissions Office occurs primarily prior to enrollment, many services are available to currently or previously enrolled students. Staff members are available to provide assistance in meeting residency requirements for fee purposes and readmission procedures.

Office of the Registrar

The Office of the Registrar is located in University Hall. Staff members are available to provide services in a variety of areas, including degree requirements, registration, transfer of credit, academic transcripts, graduation, and enrollment verification. Detailed information regarding the grading system, grade point averages, academic citation, course withdrawal and refunds, graduation and honors, may be found in the Columbus State University catalog. Complete information on undergraduate and graduate programs at Columbus State University, as well as limited information about other universities, is available upon request.

Academic Advising and Registration

Academic advising is an integral part of the educational program. Advising is the continuing interaction between student and advisor in a developmental process that involves the exchanging of information and setting of goals. This process enables the student to understand the educational and career options available.

Students admitted to Columbus State University will be assigned to either University College (undeclared majors, high school joint enrollment, and learning support) or a CSU department. The student will confer with the advisor each term to discuss the specific courses required to complete the degree of the student's choice. The student maintains communication with the advisor throughout the academic career.

Students may register by logging onto the CSU website, **www.ColumbusState.edu**, entering the CougarNet portal, and then accessing the Enrollment Services Tab. Please refer to the CSU Web for specific dates and information regarding early registration, late registration, and schedule change.

Registration

A special advisement and registration period is held each semester and is published in the academic calendar. Before registration begins, all advisors set aside ample time to be available for academic advisement for the upcoming semester. Students are encouraged to make an appointment each semester to take advantage of this opportunity.

Schedule Change

Students who do not register early or who wish to change their schedules may do so during the schedule change period published in the academic calendar. Students may register via the web by using CougarNet and the Enrollment Services Tab. Please refer to the Columbus State University Class Schedules page on the web for specific dates and information regarding registration and schedule change.

Enrollment in Online Courses

Students who have not previously enrolled in an online course at CSU must complete the SmarterMeasure Assessment survey before they will be allowed to enroll in an online course. The survey can be found at **online.columbusstate.edu** under the Resources tab.

Academic Standing

The progress of all students is evaluated at the end of each semester. Determination of academic standing is based on a student's institutional and semester grade point averages, and the number of course attempts in required learning support subject areas. Students receiving financial aid should also refer to satisfactory academic progress under the financial aid section of this catalog.

Academic Probation

Academic Probation occurs when a student's institutional grade point average falls below 2.0.

Continued Academic Probation

Continued Academic Probation occurs when, at the end of a student's probationary semester, a student's semester grade point average is 2.0 or higher and the institutional grade point average falls below 2.0.

Removal from Probation

Removal from Probation occurs when, at the end of a probationary semester, a student's institutional grade point average equals or exceeds the satisfactory progress levels shown below.

Academic Exclusion

Academic Exclusion occurs when, at the end of a probationary semester, a student's semester grade point average is lower than 2.0 and the institutional grade point average falls below the satisfactory progress levels shown below. The length of exclusion resulting from grade point averages will be a minimum of one semester after the first and second exclusion, and a minimum of one calendar year after the third exclusion. Credit earned at other institutions during a mandatory exclusion period will not transfer back to Columbus State University.

Reinstatement on Academic Probation

After the mandatory period of exclusion, as stated above, has elapsed, a student may apply for reinstatement on probation. The application must reach the Admissions Office by the published application deadline for the semester. Students must satisfy the conditions of the reinstatement before they will be eligible to register for classes for the following term.

Satisfactory Progress Levels

Total GPA hours attempted (*)	Minimum overall grade point average for satisfactory progress
00-29	1.40
30-59	1.60
60-89	1.80
90 or more	2.00

** Includes transfer and Columbus State University GPA hours*

Satisfactory Progress Levels for Students Entering Fall 2009

Total GPA hours attempted (*)	Minimum overall grade point average for satisfactory progress
00-29	2.00
30-59	2.00
60-89	2.00
90 or more	2.00

Learning Support Academic Standing

Determination of academic standing is based on the student's overall and semester grade point averages, and the number of course attempts in required learning support subject areas.

Learning Support Probation

Learning Support Probation occurs when a student's required learning support subject area is not satisfied after one course attempt in English and two course attempts in math.

Removal from Learning Support Probation

Learning Support Probation removal occurs when a student assigned to learning support satisfies a required subject area.

Learning Support Dismissal

Learning Support Dismissal occurs when a required learning support subject area is not satisfied after two course attempts in reading or English and three course attempts in math. The length of dismissal, which is based on the number of learning support course attempts without satisfying a required subject area, will be one year. Credit earned at other institutions during a mandatory exclusion period will not transfer back to Columbus State University.

Reinstatement on Learning Support Probation

A student may apply for reinstatement on Learning Support Probation after the mandatory period of dismissal has expired, as stated above. The application must reach the Admissions Office by the published application deadline for the semester. Students must satisfy the conditions of the reinstatement before they will be eligible to register for classes the following term.

Class Attendance and Withdrawal

The attendance policy for classes is established by the individual faculty member. If an instructor does not provide a written policy statement during the first week of classes, a student is permitted to accumulate a total of nine (9) hours of absences in a three credit-hour course without exclusion. An instructor may exclude a student and assign the grade of "WF" upon accumulation of 10 or more hours of absences, or the equivalent in courses carrying fewer credit hours.

Withdrawals

Administrative Withdrawals

A student may be administratively withdrawn from the University when in the judgment of the Dean of Students, and after consulting with appropriate University officials, such as the Director of Student Health Services and/or the Director of the Counseling Center, it is determined that the student suffers from a physical, mental, emotional, or psychological health condition which poses a significant danger or threat to others or the University. All Administrative Withdrawals should be reviewed within 72 hours of the time of withdrawal and recommendation for appropriate action forwarded to the Vice President for Student Affairs.

Course Withdrawal

Students wishing to drop a course after the last official day of the schedule change period must officially withdraw from the course through CougarNet. Prior to the W grade deadline, as listed on the CSU website, a grade of W will be assigned by the Registrar unless the instructor has already assigned a WF grade for excessive absences. A student initiating a withdrawal after the published deadline will automatically receive the grade of a WF. A student may appeal the WF grade if documentation of non-academic hardship is provided. Students may not withdraw from a required learning support course with a grade of W while remaining in degree level courses. To remain in degree level courses, the learning support withdrawal grade will be WF and will count as a learning support attempt. Refer to the CSU website for specific dates and additional information regarding course withdrawals.

Medical Withdrawal

Academic Center for Excellence

The Academic Center for Excellence (ACE) provides students with a central resource for information about the academic programs, student support services, and other opportunities available at CSU. The Center assists students in exploring various majors and refers them, when appropriate, to related campus resources such as the Center for Career Development and the Counseling Center. Advisors in the Academic Center for Excellence work closely with advisors in the academic departments to provide specialized advising to transfer students, first-year students who have not selected their majors, and returning students who are considering changes in their majors. The faculty and staff of the Academic Center for Excellence are supportive of students and encourage them to make responsible and informed decisions about their programs of study.

Students who present proper documentation of physical, psychological, or cognitive disabilities are provided with individualized plans tailored to their needs. Course requirements are not waived, but reasonable accommodations will be made when appropriate to assist students in meeting the requirements. In order to receive accommodations during a semester, appropriate documentation should be presented to the Office of Disability Services as soon as possible, preferably before the beginning of the semester. Accommodations are not retroactive, but begin once the process is completed. For more information, go to <http://disability.columbusstate.edu/index.php>

Reserve Officers' Training Corps

Columbus State University, in conjunction with the Department of the Army, maintains a Department of Military Science to acquaint students with the Army, its role in society, and fundamentals of leadership and management. ROTC aids students in developing those abilities and attitudes which will make them academically successful. The ROTC program is designed to train students to become well-educated junior officers for the active Army, the Army National Guard, and the Army Reserve. Students may elect to take the first two years of academic instruction without any military obligation. Students who want to pursue a commission in the Army Officer Corps and who meet eligibility requirements may continue to take the last two years of ROTC instruction and be commissioned as second lieutenants upon graduation. Students who missed the first two years of Army ROTC can receive credit for the Basic Course requirements by attending a 32-day Leaders Training Course at Ft. Knox, Kentucky, between their sophomore and junior years. Those who have prior military experience or three years of JROTC can also receive credit.

The ROTC program offers two, three, and four-year scholarships for students enrolled in or contemplating enrolling in ROTC. These scholarships pay for tuition and fees or room and board and \$600 per semester for books and supplies. Scholarship students and all cadets enrolled in the last two years of the program also receive up to \$5000 per year in subsistence allowance.

For additional information contact the ROTC department, in Stanley Hall Room 110, or call 706-507-8031, 706-568-2058 or at ArmyROTC@ColumbusState.edu.

These concerns include but are not limited to the following: anxiety management, depression, vocational and career decisions, loneliness, interpersonal relations (peers, boy/girl friend, family) and academic difficulties.

If the counseling staff is unable to provide the necessary service for a client, appropriate recommendations are discussed and referrals are made. Each semester, counseling staff present outreach programs on topics such as test anxiety reduction, personality styles, dream interpretation, learning strategies, stress management, and assertiveness training. Students are encouraged to take advantage of these free workshops.

Psychological testing is available in areas of interest, intelligence, learning problems or academic achievement, and personality. The primary purpose of the testing services is to assist students in self-awareness and to integrate this awareness into decision-making skills and rewarding behavior.

The Office of Diversity Programs and Services located in the Davidson Student Center, room 271, provides assistance and advocacy to minority, multicultural and international students. Special interest programming is designed for these students to encourage creative thinking, social and global awareness and retention. Veteran Affairs

The Office of Veterans Affairs (OVA) is located in University Hall. This office is responsible for monitoring veterans and their eligible dependents' enrollments. This includes academic progress, course reductions and withdrawals. It is recommended that students maintain close contact with their respective faculty advisors and the OVA to insure proper enrollment for their degree objective and VA approved programs.

Veterans Educational Benefits

ELIGIBILITY & ENTITLEMENTS TITLE 38, U.S.C. VA Educational benefits are provided to the veteran and qualified dependents as follows:

Chapter 30 - Montgomery GI Bill

Service personnel may be eligible to receive benefits if he/she initially entered active duty on or after July 1, 1985, and were discharged from active duty with an "Honorable Discharge," have completed your contractual active duty obligation and have contributed \$100.00 a month for 12 months of your active duty service.

Chapter 31 - Vocational Rehabilitation

Vocational Rehabilitation is provided for veterans who have a service connected disability and were discharged or released from active duty under conditions other than dishonorable. The Veteran Administration determines eligibility.

Chapter 33 - Post-9/11 Veterans Educational Assistance Act of 2008

Eligible individuals. Generally, an individual who served a minimum of 90 days on active duty after September 10, 2001, will be eligible for educational assistance under the Post-9/11 GI Bill. (Contact the Veterans Affairs Office for length of service requirements.) Active duty served as a member of the Armed Forces or as a result of a call or order to active duty from a reserve component under section 688, 12301(a), 12301(d), 12303(g), 12302, or 12304 of Title 10 is qualifying active duty service. Chapter 33 Entitlement. Individuals eligible under chapter 33 are generally entitled to 36 months of educational assistance. Individuals may not receive benefits under chapter 33, and 30, 31, 32, 35 of title 38 or chapter 107, 1606, or 1607 of title 10 concurrently. Individuals are limited to a maximum of 48 months of entitlement when using benefits under two or more programs. For more information on Chapter 33, please contact the Veterans Affairs office at Columbus State University.

The Department of Defense (DoD) offers members of the Armed Forces the opportunity to transfer Chapter 33 benefits to their spouse or dependent children. If a member of the Armed Forces (active duty or Selected Reserve) serves six years and reenlists for 4 more years or has at least 10 years of service, then transfer of entitlement (ToE) is possible.

While in the Armed Forces, members use the ToE website to designate, modify, and revoke a ToE request. After leaving the Armed Forces, members can provide a future effective date for use of ToE, modify the number of months transferred, or revoke entitlement transferred by submitting a written request to VA.

NOTE: After separating from the Armed Forces individuals cannot designate new dependents to receive transferred entitlement or amend the effective date of the initial transfer of entitlement to an earlier date.

Refer students to the Transfer of Entitlement link on the www.gibill.va.gov homepage. The link explains what the member must do, what the child or spouse must do, and gives all the needed links. There are two basic steps:

Step 1: The service member (transferor) must transfer the entitlement. If approved, transfer data is put into a secure online database DoD shares with VA. That database, in addition to providing VA qualifying periods of Chapter 33 service, also provides ToE data.

Step 2: The spouse or child (transferee) must apply. The application VA Form 22-1990e; Application for Family Member to Use Transferred Benefits can be completed

- B. Enhance the reputation of the University;
- C. Provide additional educational opportunities for participating students; and
- D. Promote the general welfare of the public at large.

Patentable inventions and copyrightable materials often come about because of the activities of CSU faculty, staff and students who have been aided by the use of CSU resources. As part of the CSU's mission, it is important to insure the utilization of such inventions, creations and materials for the public good and to expedite their development and delivery to the public.

At the same time, the CSU encourages the protection of the rights and privileges, and endorses the initiative and incentive of the Creator(s) so that their abilities, as well as those of all other faculty, staff and students, are further stimulated and rewarded.

CSU recognizes the publication of scholarly works as an integral part of the processes of teaching, research and service. Therefore, the University encourages faculty, staff and students to regularly prepare for publication, either through individual or collaborative effort and initiative, articles, pamphlets, books, works of art and other scholarly works which may be subject to copyright and which may generate royalties for the Creator.

Publication may also result from work supported either partially or completely by CSU. With the advent of current and future technology, the variety and number of materials that might be created in a university community has increased significantly, causing the ownership of such copyrightable materials to become increasingly complex.

CSU strives to be at the forefront of teaching and to provide diverse high-quality learning environments. To achieve these goals, CSU encourages and provides incentives for innovators and creators in the development of improved educational materials. Through the efforts of faculty and staff, digital and other storage, and transmission media will have an increasing role in expanding educational effectiveness and accessibility. When such materials are used to expand programs outside the traditional campus, they deserve Intellectual Property (IP) protection.

CSU recognizes the need for enhanced development and dissemination of software technology as a means of expressing both old and new knowledge. CSU is also aware of the dynamic nature of software and that the value of such IP is derived from the ability of its owner to control its use. Indeed, its value is directly related to the degree of protection it enjoys under the law. CSU encourages the protection of such expressions of knowledge by the utilization of appropriate IP laws and the creation of comprehensive software technology transfer policies and procedures.

The foregoing considered, and in order to establish the respective rights and obligations of the University and its faculty, staff and students with regard to current and future Intellectual Property, CSU does hereby establish the following Intellectual Property Policy.

2. Definitions

- A. **Commercialization** means the process of marketing and licensing Intellectual Property to parties outside CSU who, in turn, will develop products or services based

on that IP to sell or license to others. By way of counter-example, this term does not apply to CSU offering a course or seminar for a fee.

- B. Copyrighted Materials** shall include the following: (i) books, journal articles, texts, glossaries, bibliographies, study guides, laboratory manuals, syllabi, tests and proposals; (ii) lectures that are written, recorded or otherwise captured, musical or dramatic compositions, unpublished scripts; (iii) films, filmstrips, charts, transparencies, and other visual aids; (iv) digital video and audio discs and cassettes; (v) live video and audio broadcasts; (vi) programmed and instructional materials; (vii) mask works; (viii) research notes, research data reports, and research notebooks; and (ix) other materials or works other than software, which qualify for protection under the copyright laws of the United States (see 17 U.S.C. 102 et seq.) or other protective statutes whether or not registered there-under.
- C. Creator** means a member of the CSU faculty, staff, or student body who creates or develops an invention, as defined under the U.S. patent law, or who participates in the creation of a copyrightable work, under U.S. copyright law, or both. One is a participant in creating a copyrighted work when one makes an original work of authorship (or part thereof) fixed in any tangible medium of expression from which the work can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device. Being an editor or otherwise facilitating a creation does not ordinarily qualify one as a "Creator." The term Creator shall be understood to refer to either singular or multiple creators.
- D. CSU Research and Service Foundation, Inc. (CSURSF)** is the entity formed for the purpose of evaluating, administering, owning and licensing IP created by CSU faculty, staff and/or students. CSURSF is a non-profit organization whose sole purpose is to support CSU.
- E. Disclosure Form** is the document by which faculty, staff and/or students disclose to the CSURSF the project or program being conceived of or developed. This document is due before work begins on such project or program.
- F. Faculty member, staff member and student** shall include, for the purposes of this policy, students who are enrolled for any course at CSU, as well as all faculty or staff members who are employed on a full- or part-time basis by CSU.
- G. Individual Efforts** are those activities directed toward a research project or a creative project which are initiated and undertaken by a CSU faculty or staff member and/or student during which:
1. only incidental use of University resources is made;
 2. the project is developed on one's own time and is not in accordance with the terms of a sponsored project; and
 3. the project is not undertaken in whole or in part as a University assignment.
- H. Intellectual Property** shall be deemed to refer to copyrighted materials, patentable processes or materials, software, trademarks, and trade secrets, whether or not formal protection is sought.
- I. Lead Creator** shall be the person in charge of the project or program which develops the IP. There may be more than one Lead Creator on a project or program, however, this must be specified in the Disclosure Form.
- J. Mask Work** means a series of related images, however fixed or encoded: (i) having or representing the predetermined, three dimensional pattern of metallic, insulating, or semiconductor material present or removed from the layers of semiconductor chip product; and (ii) in which series the relation of the images to one another is that each image has the pattern of the surface of one form of the semiconductor chip product (See 17 U.S.C. 901).
- K. Net Revenue** shall mean the revenue received through commercialization of any IP less the associated expenses which may include, but not be limited to, patent costs, attorney's fees, marketing costs, reproduction, mailing, consumables, accounting costs, unreimbursed development costs, etc.
- L. Novel Plant Variety** means a novel variety of sexually reproduced plant (See 7 U.S.C.

2321 et seq.).

- M. Patentable Materials*** shall be deemed to refer to items which reasonably appear to qualify for protection under the patent laws of the United States or other protective statutes whether or not patentable there-under. These are to include Novel Plant Varieties and Patentable Plants.
- N. Patentable Plant** means an asexually reproduced distinct and new variety of plant (See 35 U.S.C. 161).
- O. Software** shall include one or more computer programs existing in any form, or any associated operational procedures, manuals or other documentation, whether or not protectable or protected by patent or copyright. The term "computer program" shall mean a set of instructions, statements or related data that, in actual or modified form, is capable of causing a computer or computer system to perform specified functions.
- P. Sponsored Efforts** are those research and other projects undertaken by faculty, staff and/or students which are paid for, either wholly or substantially in part, by outside entities. Such entities may include, but not be limited to, governmental, corporate, Defense Department, or private foundation. A sponsored effort may be in the form of a grant or a contract whose purpose is to produce a result through research, writing, programming, construction or other effort.
- Q. Trademarks** shall include all trademarks, service marks, trade names, seals, symbols, designs, slogans, or logotypes developed by or associated with the University System of Georgia or any of its institutions (see 15 U.S.C. 1127).
- R. Trade Secrets** means information including, but not limited to, technical or nontechnical data, a formula, a pattern, a compilation, a program, a device, a method, a technique, a drawing, a process, financial data, financial plans, product plans, or a list of actual or potential customers or suppliers which: (i) derives economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons, who can obtain economic value from its disclosure or use; and (ii) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy (See O.C.G.A 10-1-761).
- S. University-Assigned Efforts** are those efforts which the University assigns to a College, department, specific faculty member(s), staff, and/or student(s). The assignment may be either explicit, as in a directive from the president, provost, a dean, department chair or other administrative or governance body, or implicit, as in an effort undertaken as a part of one's job. Excluded are those scholarly and creative works produced under the general obligation faculty and students have for developing such works which include, but are not limited to, textbooks, associated supplementary material, dissertations, class assignments, other books, musical compositions, works of art, and journal articles.
- T. University-Assisted Efforts** are those undertaken by faculty, staff and/or students on their own initiative which receive institutional support (financial or otherwise) or use institutional resources in more than a purely incidental way. Such resources include, but are not limited to, use of funding provided by the University or a University-associated foundation, use of University-paid time within the employment period and/or by others involved, use of support staff and/or students, and use of University facilities other than one's office and the CSU library.
- U. University Managed/Operated Efforts** are those in which a department is expected to develop IP to help carry out its primary mission and to assist in defraying departmental expenses. The University, Faculty and Staff recognize that these departments include elements that go beyond the traditional teacher/student/classroom relationships, though those elements are included and considered of primary importance as well. Departments that fit this category include, but are not limited to, the Coca Cola Space Science Center, Oxbow Meadows, The CSU Social Research Center, and the Cunningham Center.

*Note: "Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof,

may obtain a patent therefore, subject to the conditions and requirements of this title.”
United States Code Annotated, Title 35, Section 101, as amended.

3. Intellectual Property Committee

A. Composition

Intellectual Property activities at CSU shall be under the general oversight of an institutional Intellectual Property Committee (IPC). This committee shall be appointed by the president and shall consist of nine (9) members as follows:

1. Up to six (6) faculty with a minimum of at least one from each of the Colleges, and
2. Up to three (3) staff with at least one each from the offices of the Provost/Vice President of Academic Affairs and the Vice President of Business and Finance.
3. Up to one (1) student.

Ad hoc advisors may be added by the Chair at any time to consider a particular case if necessary. Five members shall constitute a quorum. The Chair shall be elected by the IPC and shall serve as Chair for the duration of his/her term.

Term length shall be three (3) years with staggered term lengths for the initial committee members. Members may request to remain on the IPC for successive terms subject to the approval of the President.

B. Duties of the Intellectual Property Committee

1. To advise the President on policy matters relating to Intellectual Property;
2. To implement the IP Policies as defined herein;
3. To recommend IP Policy revisions and amendments as it deems necessary;
4. To arbitrate disputes over IP;
5. To approve deviations from the IP policy; and
6. To review IP that is referred to it through the disclosure process.

C. Meetings

The IPC shall meet as necessary but at least once during the academic year.

4. Intellectual Property Management

The IPC is responsible for implementation of the University's Intellectual Property Policy. CSURSF is responsible for determining whether or not to administer such Intellectual Property by undertaking the efforts necessary to protect and/or license, or otherwise commercialize, that IP.

A. Management of Sponsor-Supported Efforts

IP created through Sponsor-Supported Efforts, subject to provisions of the Sponsor, shall be managed by CSURSF should CSURSF opt to do so.

B. Management of University-Assigned Efforts

IP created through University-Assigned Efforts shall be managed by CSURSF, should CSURSF opt to do so.

C. Management of University-Assisted Individual Effort

IP created through University-Assisted Efforts shall be managed by CSURSF, should CSURSF opt to do so.

D. Management of Individual Efforts

It shall be the responsibility of the Creator(s) to demonstrate that IP developed as a result of individual efforts while employed by the University meets the criteria set forth in section 2(G). In each case, when agreed to by the IP Committee, the IP will be acknowledged as belonging to the Creator to dispose of as the Creator sees fit.

If both the Creator and CSURSF agree in writing, Individual Effort IP may be managed by the CSURSF on the Creator's behalf. For purposes of income distribution such IP managed by the CSURSF shall be treated as University-Assisted Intellectual Property.

E. Declined Intellectual Property

Whenever CSURSF elects not to manage Intellectual Property, or elects to cease managing Intellectual Property that is at the time under its purview, such Intellectual Property, subject to any obligations to a sponsor, may be assigned by CSURSF to the Lead Creator to dispose of as the Lead Creator sees fit.

5. Determination of Rights and Equities in Intellectual Property

A. Sponsor-Supported Efforts

Sponsored project agreements may contain specific provisions with respect to ownership of IP developed during the course of such work. Should ownership of any IP produced be shared between the sponsor and CSU or individual performing the work, then ownership of the university/individual's portion shall vest in CSU. Income, if any, from such IP developed from Sponsor-Supported Efforts shall be shared, subject to the sponsor agreement, in accordance with Section 6.

B. University-Assigned Efforts

Ownership of IP developed as a result of University-Assigned Efforts, including any effort normally associated with one's discipline and position, shall reside with the University. Copyrightable works created by an employee in the course of that employee's employment are considered to be works made for hire under copyright law, with ownership vested in the employer. The general obligation among faculty and students to produce scholarly and creative works, such as textbooks and associated supplementary material, dissertations, other books, musical compositions, works of art, and journal articles does not constitute a specific assignment for this purpose and would constitute an Individual Effort.

Work supported by CSU or CSU Foundation grants or stipends shall be considered University-Assigned Efforts unless the work falls under the general obligation to produce scholarly and creative works.

Income, if any, from such IP developed from University-Assigned Efforts shall be shared as described in Section 6.

B. University-Assisted Efforts

Ownership of IP developed by CSU employees or students through University-Assisted Efforts as defined in Section 2(T) shall reside with the University, unless the CSURSF determines that the IP is not commercially viable at which point ownership shall be assigned to the Creator.

Income, if any, from such IP developed from University-Assisted Efforts shall be shared as described in Section 6.

C. Individual Efforts

Ownership of IP developed by University personnel shall reside with the Creator(s) of such IP provided that it meets the definition of Individual Efforts in Section 2(G) and that the Creator(s) has decided not to use the CSURSF to commercialize the IP.

It shall be the responsibility of the Creator of the IP, if requested, to demonstrate that this classification applies to the IP.

D. University-Managed/Operated Efforts

Ownership of IP developed by University-Managed/Operated Efforts is subject to the same considerations and definitions as those described above and defined in Section 2(U) and shall reside with the University.

Income, if any, from such IP developed by University Managed and Operated Efforts shall be shared as described in Section 6.

6. Distribution of Income

Net Revenue generated from Intellectual Property administered by CSURSF shall be shared on the following basis:

Shares which go to the Creator's academic Department and College, and to Faculty Research and Development shall only be used to fund new research or to pay for faculty development opportunities such as scholarly conferences.

Should a person in an academic unit not affiliated with a College create intellectual property under the guidelines above, which is then commercialized, the share which would have gone to the College will instead go to the Provost for further faculty research and development. The library shall be treated as a college for purposes of this section of the policy.

	<u>Creator(s)</u>	<u>Creators' Department</u>	<u>Creators' College</u>	<u>Creators' Research Efforts</u>	<u>CSURSF</u>	<u>Provost's Office for Faculty Research & Development</u>
<u>Sponsor</u>	65%	10%	5%	5%	5%	10%
<u>Univ-Assigned</u>	50%	15%	10%	10%	5%	10%
<u>Univ-Assisted</u>	65%	10%	5%	5%	5%	10%
<u>Individual Effort</u>	100%	0%	0%	0%	0%	0%
<u>Univ-Managed/ Operated</u>						
<u>CCSSC</u>	15%	80%	=	=	5%	=
<u>Cunningham</u>	15%	80%	=	=	5%	=
<u>SRC</u>	10%	60%	=	=	5%	25%
<u>UTTS</u>	15%	85%	=	=	5%	=

The shares going to the Creator's Department shall be administered by the administrative department head or the academic department chairperson. The share going to the Creator's College shall be administered by the Dean of the College, and the share going to Faculty Research and Development shall be administered by the Provost. The share designated for the Creator's Research Efforts may only be used for future research efforts by the project's Lead Creator or for professional development and is only in effect while the Lead Creator(s) is employed by, and conducting research at, the University. If the Lead Creator leaves the employ of the University, then this share is returned to CSURSF.

The share going to the CSURSF shall be used for administrative expenses including, but not limited to, tax return preparation, audits, and commercialization efforts.

The Creator's share of Net Revenue shall be divided equally among joint Creators of the IP unless a written statement signed by all joint Creators which provides for a different distribution formula is filed with CSURSF prior to the first distribution of shared Net Revenue.

It is the Lead Creator's responsibility to reach a signed income distribution agreement with all co-creators, including students, prior to the commencement of a project. This agreement must be filed with the CSURSF.

In the event the Creator, or one of the Creators leaves the University, that Creator will then receive half of their original share. The other half shall then go to the Faculty Research and Development fund. The only exception being a student Creator who graduates, in which case the student shall continue to receive their full share for 10 years after graduating and then shall receive a half share with the other half going to the Faculty Research and Development fund.

In the event of the death of a Creator, any payment due, or which would have been due to such Creator, shall be made to the Creator's estate for a period of ten (10) years from the date on the Creator's death certificate. After the ten year period, those royalties shall revert to CSURSF.

In the event the terms of any license of IP provide CSURSF with equity, or an option to acquire equity in the entity which licenses the IP, the share of such equity due to the Creator as identified above will be distributed to the Creator when such equity is transferable or convertible to cash.

In the event that IP is licensed to the Creator, the Creator shall waive the right under the University Intellectual Property Policy to receive the Creator's share of Net Revenue specified above. Additionally, if the Creator owns or controls 25% or more of the entity that licenses the IP, the Creator shall waive the right under this University IP Policy to receive the Creator's share of Net Revenue specified above.

In the event the Creator does not receive the Creator's share, that share shall be distributed to any joint Creators identified in writing in the proportions specified in the

above chart, or if there are none, shall revert to CSURSF.

7. Disclosure of Intellectual Property

All faculty, staff and students who initiate work on a research or other project which could produce IP are required to disclose their efforts at the outset of the project to the CSURSF.

The purpose of IP Disclosure is to record IP that may be, is being, or was created and the circumstances under which it is or was created. It provides the basis for a determination of patentability, for drafting a patent application, and/or for registering a copyright. It also provides the initial basis for determining the commercial viability of the possible IP to be created.

An Intellectual Property Disclosure Form needs to be completed when something new and useful has been conceived of or developed, or when unusual, unexpected, or unobvious research results have been achieved.

An Intellectual Property Disclosure Form also needs to be completed when other forms of IP are created by faculty, staff, or students, unless the works are specifically excluded as noted in Sections 2, 4 and/or 5.

Once the form is signed by the Creator, the form and supporting documents should then be submitted to the CSURSF.

Disclosures are not required for Individual Efforts or for scholarly and creative works produced under the general obligation faculty and students have for developing such works which include, but are not limited to, textbooks, associated supplementary material, dissertations, class assignments, other books, musical compositions, works of art, and journal articles.

8. Dispute Resolution and Appeals

All cases in which questions arise as to equities, rights, division of royalties, or any other Intellectual Property-related matter shall first be referred to the Intellectual Property Committee for consideration, interpretation of policy, and decision.

CSU Faculty, staff and students shall have the right to appeal the decisions of the Intellectual Property Committee. Any appeal of an Intellectual Property Committee decision shall be first to the Provost, then, if one desires, to the President, and finally to the Board of Regents.

Appeals within the CSU must be made in writing within thirty (30) days of written notice of a final decision and will be adjudicated within 30 days after receipt by the entity at the next level in the appellate process. Appeals to the Board of Regents shall be made in accordance with Article IX of the Bylaws of the Board, which requires that all appeals be filed within twenty (20) days of the final decision of the President of the University.

9. Collaboration

Collaboration between CSU personnel and persons not employed or associated with the University, including researchers at other universities or companies can result in the development of IP jointly owned by CSU and other persons or their employers. Protection and commercialization of such joint Intellectual Property can be difficult without extensive cooperation and written agreement among the Creators. Accordingly, it is important for University personnel involved in, or contemplating collaborative efforts with outside entities which may result in the development of IP to advise their immediate supervisors, the Office of Research Services and Sponsored Programs, and the Director of the CSURSF of such activities. An agreement in writing between the parties will need to be signed prior to the collaboration.

10. Confidentiality

Certain contractual obligations and governmental regulations may require that information be maintained in confidence. Additionally, some works, such as certain computer software, may best be protected and licensed as trade secrets, and inventions must be maintained in confidence for limited periods to avoid the loss of patent rights. Accordingly, the timing of publications is important, and CSU Personnel shall use their best efforts to keep the following items confidential:

- A. All information or material designated confidential in a contract, grant, or the like;
- B. All information or material designated or required to be maintained as confidential under any applicable governmental statutes or regulations; and
- C. All information relating to IP developed by CSU Personnel which may be protected under this Policy until application has been made for protection.

11. Obligations of Lead Creators

Lead Creators shall be responsible for informing co-workers, including students, of their rights and obligations under this Policy as well as under contracts, grants and the like before initiation of a research, creative or other project which would fall under this IP Policy.

12. Heirs and Assigns

The provisions of this Policy shall inure to the benefit of and be binding upon the heirs and assigns of (i) all CSU personnel and (ii) all others who agree to be bound by it.

13. Prevailing Policy

In the event of a conflict between this IP Policy and any policy of the Board of Regents, the latter shall prevail.

14. Changes in Policy

This IP Policy may be changed by the President on the recommendation of the Intellectual Property Committee, with the endorsement of the Faculty Senate.

15. Retention of Ownership

Ownership of IP will normally be retained by the CSURSF. This is to ensure that all licensable knowledge, processes and devices created or invented will be available for public use. Licensing agreements granted by the CSURSF will contain a due diligence provision which will require that the license revert to the CSURSF within a reasonable period of time if the licensee does not make the IP available to the public.

16. Policy Applicability

This IP Policy applies to all full or part-time faculty, staff and students of Columbus State University.

Hazing

Hazing by definition is: "Any action taken or situation created, intentionally, whether on or off fraternity premises, to produce mental or physical discomfort, embarrassment, harassment, or ridicule. Such activities may include but are not limited to the following: use of alcohol; paddling in any form; creation of excessive fatigue, physical and psychological shocks; quests, treasure hunts, scavenger hunts, road trips or any other such activities carried on outside or inside of the confines of the chapter house; wearing of public apparel which is conspicuous and not normally in good taste; engaging in public stunts and buffoonery; morally degrading or humiliating games and activities; and any other activities which are not consistent with academic achievement, fraternal law, ritual or policy or the regulations and policies of the educational institution, or applicable state law."

While hazing is typically associated with organizational candidacy whereby one is attempting to prove and / or earn initiation privileges, it is sometimes used as a method of pre-membership bribery. Such acts are also illegal as they may impose the same mental, emotional and / or physical anguish upon an individual and will be considered equally offensive. Sanctions for such acts may be severe as administration will endorse the Student Rights and Responsibilities in accordance with university policy and the law respectively. Sanctions mandated by administration within the Offices of Student Life and Dean of Students could include community service, loss of facility privileges, loss of membership within said organization, temporary or permanent disbandment of organization from campus, arrest or others not listed. The Offices mentioned above work collectively in such cases to determine the appropriate course of action based on severity of the offense.

Sexual Misconduct Policies and Procedures

Introduction

Columbus State University is committed to creating and maintaining a University community in which all persons can work and learn together in an atmosphere free of all forms of harassment.

Thus, all campus members should refrain from any conduct that could give rise to a charge of sexual misconduct. Columbus State University treats all members of the campus community the same in sexual misconduct cases whether male or female; straight, gay, lesbian, bisexual or transgender; part-time or full-time; with or without disabilities; and different races or national origins. Persons who engage in sexual misconduct shall be subject to disciplinary action, to include suspension or expulsion when warranted.

The university affords certain rights to campus members who have been sexually harassed and/or assaulted. These rights include assistance in reporting the crime and in securing counseling and health services. Accused persons are subject to arrest, incarceration, and prosecution through the court system. Accused persons are also subject to university judicial proceedings that may result in suspension or permanent expulsion from Columbus State University.

Campus action may proceed independently of action by local, state or federal authorities.

Columbus State University offers information regarding the prevention of sex offenses through its University Police Department. To obtain the information, contact University Police at (706) 507-8911.

Sexual Misconduct Offenses includes, but are not limited to:

- a. Sexual Harassment- Unwelcome, gender-based verbal or physical conduct that is, sufficiently severe, persistent or pervasive that it, unreasonably interferes with, denies or limits someone's ability to participate in or benefit from the university's educational program and/or activities, and is, based on power differentials (*quid pro quo*), the creation of a hostile environment or retaliation.
- b. Non-Consensual Sexual Contact- Any intentional sexual touching, however slight, with any object, by a man or a woman upon a man or a woman, that is without consent and/or by force. Sexual Contact includes intentional contact with the breasts, buttock, groin, or genitals, or touching another with any of these body parts, or making another touch you or themselves with or on any of these body parts; any intentional bodily contact in a sexual manner, though not involving contact with/of/by breasts, buttocks, groin, genitals, mouth or other orifice.
- c. Non-Consensual Sexual Intercourse- Any sexual intercourse, however slight, with any object, by a man or woman upon a man or a woman, that is without consent and/or by force. Intercourse includes vaginal penetration by a penis, object, tongue or finger, anal penetration by a penis, object, tongue, or finger, and oral copulation (mouth to genital contact or genital to mouth contact), no matter how slight the penetration or contact.
- d. Sexual Exploitation- Occurs when a student takes non-consensual or abusive sexual advantage of another for his/her own advantage or benefit, or to benefit or advantage anyone other than the one being exploited, and that behavior does not otherwise constitute one of other sexual misconduct offenses. Examples of sexual exploitation include, but are not limited to: invasion of sexual privacy; prostituting another student; non-consensual video or audio-taping of sexual activity; going beyond the boundaries of consent (such as letting your friends hide in the closet to watch you having consensual sex); engaging in voyeurism; knowingly transmitting an STI or HIV to another student; Exposing one's genitals in non-consensual circumstances; inducing another to expose their genitals. Sexually-based stalking and/or bullying may also be forms of sexual exploitation.

The Procedures

Sexual misconduct should be reported immediately to the appropriate authorities if it occurred on campus or to local law enforcement if it occurred off campus. The Office of the Dean of Students or University Police may assist in reporting the crime. Sexual misconduct may also be reported online with the BART (Behavioral Assessment and Recommendation Team) Reporting system at <http://sa.columbusstate.edu/bart.php>. Staff of the Counseling Center, the Student Health Center, and Sexual Assault Support Center are confidential services available.

If the accused party is a student and the assaulted person decides to file charges on campus, an administrator in the office of the Dean of Students will meet with each party individually, review the individual statements, conduct an investigation, and direct the appropriate disposition of the case.

If the accused is an employee and the assaulted person decides to file charges on campus, a written statement of the incident must be submitted to the Director of Human Resources. The Director of Human Resources will meet with each party individually, review the individual statements, conduct an investigation, and make a recommendation as to a disposition of the case.

Procedures

If anyone in a supervisory capacity or a responsible employee is made aware of such a complaint, he or she must bring the matter to the attention of the Director of Human Resources. No person shall be reprimanded or discriminated against in any way for initiating an inquiry or complaint in good faith. Retaliation in any form will not be tolerated. Columbus State University's objective is to take whatever action may be needed to prevent, correct, and if necessary, discipline persons whose behavior violates this policy.

What To Do if You are Raped or Sexually Assaulted

1. Go to a safe place.
2. If you want to report the assault, notify University Police at 706-507-8911 immediately. Reporting the crime can help you regain a sense of personal power and control and can also help to ensure the safety of other potential victims.
3. Call a friend, a family member, a campus advisor, or someone else you trust who can be with you and give you support. The local Sexual Assault Support Center, can assist you throughout the entire process at 706-571-6010 or 1-800-656-HOPE.
4. Preserve all physical evidence of the assault. Do not shower, bathe, douche, wash your hands, eat, drink, or brush your teeth. Save all of the clothing you were wearing at the time of the assault. Place each item of clothing in a separate paper bag. Do not use plastic bags. Do not disturb anything in the area where the assault occurred.
5. Go to a hospital emergency room. Even if you think that you do not have any physical injuries, you should still have a medical examination and discuss with a healthcare provider the risk of exposure to sexually transmitted infections and the possibility of pregnancy resulting from the sexual assault.
6. If you suspect that you may have been drugged, seek medical care immediately. Ask the hospital or clinic where you receive medical care to take a urine sample. The urine sample should be preserved as evidence. Drugs used to incapacitate people and facilitate a sexual assault, such as Rohypnol and GHB, are more likely to be detected in urine than in blood.
7. Write down as much as you can remember about the circumstances of the assault, including a description of the assailant.
8. Talk with a counselor. Columbus State University Counseling Center is a free service for all students. It is located on the third floor of the Schuster Student Success Center and the phone number is 706-507-8740. For after hours counseling please contact the Sexual Assault Support Center or University Police, who will contact an on call Columbus State University counselor.

9. For more information about what to do if you are raped or sexually assaulted, information booklets are located the University Police Office, University Counseling Center, the Student Health Clinic, Residence Life Office, and the Student Affairs Offices in Schuster Student Success Center and on the RiverPark Campus on F1011 Broadway.

Rights of the Parties

In a judicial hearing, all parties have rights. These rights are outlined in the appropriate grievance, hearing, and appeals procedures.

Security Issues

If it is determined that a person is potentially dangerous to others, then that person may be removed from the university and subject to revocation of university privileges. A campus member will have options for, and assistance in, changing academic classes, university housing, and/or university working situations after an alleged sexual assault incident if such changes are warranted and reasonably available.

Sexual Assault and Violence Education Task Force (SAVE)

The SAVE task force's charge is to increase the awareness level of the campus community on sexual violence and to provide programs to inform members of the community about sexual assault, risk factors and risk reduction measures. SAVE invites all members of the University to be proactive in working to end sexual violence. For more information or if you would like to become involved with this task force, please contact Dana Larkin, Assistant Dean of Students at larkin_dana@columbusstate.edu or 706-507-8333.

Consensual Amorous Relationships Policy

Within the University setting, faculty and supervisors exercise significant power and authority over others. Therefore, primary responsibility for maintaining high standards of conduct resides especially with those in faculty and supervisor positions. Members of the faculty and staff, including graduate assistants, are prohibited from having "Amorous Relationships" with students over whom they have "Supervisory Responsibilities." "Supervisory Responsibilities" are defined as teaching, evaluating, tutoring, advocating, counseling and/or advising duties performed currently and directly, whether within or outside the classroom, by a faculty, staff member or graduate assistant, with respect to a student. Such responsibilities include the administration, provision or supervision of all academic, co-curricular or extra-curricular services and activities, opportunities, awards or benefits offered by or through the University or its personnel in their official capacity. Employees are prohibited from having "Amorous Relationships" with employees whom they supervise, evaluate or in any other way directly affect the terms and conditions of the others' employment, even in cases where there is, or appears to be, mutual consent. An "Amorous Relationship" is defined as a consensual romantic, sexual or dating relationship. This definition excludes marital unions. The term also encompasses those relationships in which amorous or romantic feelings exist without physical intimacy and which, when acted upon by the faculty or staff member, exceed the reasonable boundaries of what a person of ordinary sensibilities would believe to be a collegial or professional relationship. The faculty/student and supervisor/employee relationship should not be jeopardized by question of favoritism or fairness in professional judgment. Furthermore, whether the consent by a student or employee in such relationship is indeed voluntary is suspect due to the imbalance of power and authority between the parties.

All members of the University community should be aware that initial consent to a romantic relationship does not preclude the potential for charges of conflict of interest, or for charges of sexual harassment arising from the conflict of interest, particularly when students and employees not involved in the relationship claim they have been disadvantaged by the relationship. A faculty, staff member or graduate assistant who enters into an “Amorous Relationship” with a student under his or her supervision, or a supervisor who enters into an “Amorous Relationship” with an employee under his or her supervision, must realize that if a charge of sexual harassment is subsequently lodged, it will be exceedingly difficult to prove blamelessness on grounds of mutual consent.

Tobacco and Smoke-Free Campus Policy

In accordance with the Georgia Smoke Free Air Act of 2005, Title 31 Chapter 12A, this policy reinforces the USG commitment to provide a safe and amicable workplace for all employees. The goal of the policy is to preserve and improve the health, comfort and environment of students, employees and any persons occupying our campuses.

The use of all forms of tobacco products on property owned, leased, rented, in the possession of, or in any way used by the USG or its affiliates is expressly prohibited. “Tobacco Products” is defined as cigarettes, cigars, pipes, all forms of smokeless tobacco, clove cigarettes and any other smoking devices that use tobacco such as hookahs or simulate the use of tobacco such as electronic cigarettes.

Further, this policy prohibits any advertising, sale, or free sampling of tobacco products on USG properties unless specifically stated for research purposes. This prohibition includes but is not limited to all areas indoors and outdoors, buildings and parking lots owned, leased, rented or otherwise used by the USG or its affiliates. The use of tobacco products is prohibited in all vehicles – private or public vehicles - located on USG properties.

This policy applies to all persons who enter the areas described above, including but not limited to students, faculty, staff, contractors and subcontractors, spectators, and visitors. All events hosted by a USG entity shall be tobacco-free. All events hosted by outside groups on behalf of the USG shall also be tobacco-free.

Methodist Campus Ministry

While strolling around CSU's campus, you may be puzzled upon seeing several students wearing t-shirts that simply say "college." Upon closer observation, however, you might notice that, on the back of their shirt, the word "house" is also prominently displayed. Congratulations! You have met one of the many students involved in the Methodist Campus Ministry at Columbus State University. The "College House" is a white, two story house located downtown on Second Avenue that is home to this special ministry. Located on St. Luke United Methodist Church's campus, the house provides space for Sunday night worship services, which includes a live (student led) band, time for prayer, and a dynamic message. Also, available throughout the week are bible studies and lunch every Thursday at noon. Because of its proximity to CSU's downtown campus, the "College House" also provides a place for busy students to relax and unwind between classes and work schedules. As the "College House" T-shirts make their circulation around the CSU campuses, more and more students are becoming actively involved in the Methodist Campus Ministry. The "College House" provides a space where students can fellowship with other Christians, and, most importantly, grow in their daily walk with Christ. Contact information is available by calling the Office of Student Life & Engagement, 706/568-2273.

Phi Mu

On January 4, 1852, Mary Ann DuPont (Lines), Mary Elizabeth Myrick (Daniel) and Martha Bibb Hardaway (Redding) founded an organization called the Philomathean Society at Wesleyan Female College in Macon, Georgia. Wesleyan was the first institution to grant college degrees to women. For the next two months the Founders were busy gathering additional members, creating a constitution, devising an initiation service and adopting a secret and an open motto. On March 4, 1852, the members announced the formation of their new society, which became the Alpha Chapter of Phi Mu Fraternity. Since that time, March 4 has been observed as Founders' Day.

By the turn of the century, the Philomathean society had developed a strong body of alumnae, a history rich in tradition and the confidence to expand into a national organization. On August 1, 1904, the Philomathean Society was chartered by the State of Georgia as a national organization with the exclusive use of the Greek letters FM and the right to establish additional chapters on other campuses.

Today Phi Mu has grown to encompass a diverse membership of more than 140,000 women nationwide. The local sorority was founded in November of 1997 as Phi Mu Kappa with 10 sisters and became a colony of Phi Mu national in Spring 2000. As members of the Pi Kappa Alpha Fraternity, we pledge ourselves to uphold the values taught in our Ritual and restated in our Vision, Mission, and Creed. The True Pike is committed to a life of caring for others as he cares for himself.

STUDENT RESPONSIBILITIES AND RIGHTS

I: Student Responsibilities

The following is an outline of the responsibilities of students, both as individuals and as groups at Columbus State University. It is the official record of all conduct regulations, rules affecting student organizations and group activities, and both student and administrative oriented policies and procedures. Columbus State University will not tolerate academic misconduct or non-academic misconduct.

Columbus State University exists to serve the higher education needs of those students who qualify for admission. The essence of higher education is found in the unhampered freedom to study, investigate, write, speak and debate on any aspect or issue of life. In attempting to achieve that unhampered freedom, the students acquire certain fundamental rights and responsibilities. These rights and responsibilities, as defined below, are considered an integral part of the educational process at Columbus State University. Any additional rights or responsibilities may be promulgated under established procedures during the school year as required for the general well being of the student body and university. A student is expected to follow these rules and the university is expected to enforce them. At the same time, the university is expected to acknowledge the student's rights stated herein and respect the student's autonomy in these areas.

Unfamiliarity is not an excuse for infractions of the regulations. Knowledge of them, on the other hand, can help the student use these rights to the fullest and avoid having others infringe on these rights.

II. Academic Freedom

Academic freedom refers to the rights and responsibilities essential to the task of scholarship in its broadest sense. It extends to the entire academic community, including faculty, students, administrators, and the institution itself. While many rights and responsibilities may be shared simultaneously by every member, the expression of academic freedom requires complementarily and civility. Access to grievance/appeal procedures and to conflict mediation is a basic component of academic freedom available to all members of the academic community.

Columbus State University, within the context of the policies of the Board of Regents of the University System of Georgia, has the authority to determine on academic grounds who may be admitted to study, what may be taught, how it may be taught, and who may teach. Administering these fundamental freedoms involves all members of the academic community.

III. Student Rights

Students have the right to learn and to inquire. They have a right to examine and discuss questions of interest, to take stands on issues, and to support causes, by orderly means which do not impede the collegial process of learning.

Students shall have the right to have their academic records kept confidential. Disciplinary records are subject to current state law. All practices and policies dealing with the acquisition and retention of information for records shall be formulated with due regard for the student's right to privacy. No records shall be available to unauthorized persons without the express consent of the student involved except under legal compulsion or in cases where the safety of persons or property is involved. No permanent records shall be kept which reflect any alleged political activities or beliefs of students.

Students shall have the right of protection against prejudiced academic evaluation. At the same time, students are responsible for maintaining the standards of academic performance established by the faculty for each course in which they are enrolled. Any student who believes that individual academic rights have been violated may seek redress by contacting the Director of Judicial Affairs, the Dean of Students, or the Associate Vice President for Academic Affairs for direction in filing a formal grievance.

Individual students and recognized campus organizations have the right to publish and distribute written materials provided that the material is done in accordance with university

regulations, and which follows the guidelines established by the publications committee. Student publications shall be guaranteed the rights inherent in the concept of “freedom of the press.” The publications committee shall protect those rights and enforce standards of responsible journalism.

To facilitate the development of constructive student organizations, it is necessary for the academic community to subscribe guidelines and procedures for the orderly and responsible operation of student organizations.

- A. When groups of students wish to establish organizations to promote their common interests, it is appropriate that they seek recognition and approval by the university. To start a new organization you must completed an online registration process at <http://students.columbusstate.edu/new-organization.php>.

Publications Committee

It is the purpose of the Publications Committee to protect freedom of the press and, at the same time, to foster the standards of responsible journalism. It also recognizes that a university newspaper is read by an audience that extends beyond the campus. With this

in mind the committee establishes the following guidelines and procedures concerning controversial matters.

1. Materials that could be classified as libelous. Libel is defined as a false and malicious defamation of another, expressed in print, writing, pictures, or signs, tending to injure the reputation of the person and exposing him to public hatred, contempt, or ridicule.
2. Obscenity and profanity in articles or advertising. Obscenity guidelines include the following:
 - a. whether the average person, applying contemporary community standards would find that the work, taken as a whole, appeals to the prurient interest,
 - b. whether the work depicts or describes, in a patently offensive way, sexual conduct, and whether the work, taken as a whole, lacks serious literary, artistic, political, or scientific value.

This section is intended to be a summary of the detailed sections of the Publications Committee Handbook that will have precedence over this publication if there are discrepancies.

The indiscriminate publication of advertisements, such as those which undermine ethical standards, undermine academic standards, promote sexism or sexist attitudes, encourage bigotry, hate or violence, etc.

Questions: Whenever questions arise, it is the responsibility of the Editor to confer with the Advisor. If the Advisor is unsure about what to do, the Advisor can then ask the Chair of the Publications Committee to convene the full committee to make a determination. If the Editor wishes to appeal the decision of the Publications Committee, such appeal should be made directly to the Grievance Hearing Panel.

Publication Editor Responsibilities

It is the responsibility of the Publication Editor to see that the following editorial policies are adhered to:

1. Facts should be distinguished from opinion.
2. The Editor should check for libelous content before publication.
3. Good faith with the reader is the foundation of all journalism worthy of the name. By every consideration of good faith a newspaper is obligated to be truthful, thorough, and accurate. Headlines should also be fully warranted by the content of the article.
4. Sound practice makes a clear distinction between news reports and expressions of opinion. News reports should be free from opinion of any kind. This rule does not apply to so-called special articles or editorials unmistakably devoted to advocacy or characterized by a signature authorizing the writer's conclusions and interpretations.
5. A newspaper should not publish opinion affecting reputation or moral character without allowing the right of swift rebuttal.
6. A newspaper should not invade a person's privacy unless there is a public right to know as opposed to mere curiosity.
7. It is the duty of a newspaper to make prompt and complete correction of serious mistakes of fact or interpretation, whatever their origin.
8. All submissions must be signed; The Saber will not publish anonymous opinion.
9. Pictures, cartoons, and other devices can be libelous and should be edited with the same discretion used for written work. The Advisor and the Editor must so instruct the staff that each member will recheck information, cartoons, and other materials to see that these meet legal and ethical standards. Staff members of student publications should review legal information before the beginning of each school year.
10. Faculty, students, or others may submit contributions to student publications, however, Editors are not obligated to publish all materials received.
11. Materials of an official nature may be published as a service to the student body.
12. Student publications will bear a prominently displayed statement to the effect that they are student publications.

Advisor Responsibilities

Overview of Responsibilities. The Advisor offers advice on the design and format of student publications, assists with business procedures, and encourages quality publications. It is never the Advisor's role to proofread or censor the student newspaper.

Legal Awareness. The Advisor should bring to the Editor's attention the legal and moral responsibilities of any college publications and the fact that the University President may be held responsible for student publications, articles, pictures, ads.

Editor's Qualification. The Advisor will ensure that all candidates meet eligibility requirements.

The Staff of Publications

The position of Editor will be limited to students who have at least a 2.50 grade point average (GPA), have shown a sincere commitment to The Saber, and have demonstrated journalistic ability.

Except for the Editor, all staff members, paid and unpaid, must maintain at least a 2.00 GPA. All other paid and unpaid staff members will be selected by the Editor, with the advice of the Advisor, on the basis of journalistic ability, interest, initiative, and contribution to the publication.

Staff can be dismissed by the Editor. Staff who have been removed from their duties have the right to appeal to the Publication Committee, then to the Grievance Review Board.

The Publications Committee, with input from the Advisor, will have the power to remove from office the Editor with "just cause," as defined by the Publications Committee Handbook.

A staff member on The Saber cannot serve simultaneously as an SGA Executive Officer due to possible conflict of interest.

Election of Editor

The annual election of the Editor will be held no later than the second Friday in April and will be supervised by the Advisor.

The Editor will be elected by a simple majority of staff members eligible to vote. To be eligible to vote, staff must have served since the beginning of the current semester. The current Editor in Chief will vote only in the case of a tie.

The newly elected Editor's term will begin the day after spring graduation.

VII. Demonstrations and Speakers on Campus

The University recognizes the rights of freedom of assembly and speech. At the same time, it recognizes its responsibilities for operating and maintaining an orderly educational environment. Requests for speaker approvals will be approved routinely provided suitable physical arrangements can be made and the known presence of the speaker will not disrupt the educational process.

Open exchanges of information, opinions, and ideas between students are an essential element of the campus experience. The policies here are intended to protect the interests of all students as well as other members of the University community. These policies presume that students are generally free to engage in freedom of expression activities in those outdoor areas of campus that are common and accessible to all students (such as park-like areas and sidewalks). The campus is open to expression activities. Users are advised to make reservations through the Office of Student Life and Engagement to prevent conflicting events from trying to use the same space.

Individual and groups engaged in freedom of expression activities on campus may be required to relocate under the following circumstances:

- A. The location selected for the activity is inadequate for the purpose for which it will be used (not big enough for the event, etc.);
- B. The activity substantially interferes with either vehicular or pedestrian traffic;
- C. The activity blocks the ingress or egress to buildings;
- D. The space is not available due to a prior reservation;
- E. The activity conflicts with a previously planned university activity;

F. The activity creates a sustained or repeated noise disturbance that substantially interferes with the normal activities of the university;

G. The activity presents an unreasonable danger to the health or safety of the applicant or other individuals;

H. The activity is prohibited by local, state, or federal law; or

I. The activity prevents fire protection, law enforcement, or emergency medical service providers from access to areas on campus.

Special Note: Approval for use of sound amplification equipment is submitted through the Office of Student Life and Engagement. Permission will be governed by the above listed standards.

VIII. Use of Likeness for Promotional Purposes

Columbus State University reserves the right to photograph and/or videotape students, faculty, staff and guests while on university property, during university-sponsored events or during activities where they are representing the university. These images and audio may be used by Columbus State University for promotional purposes, including use in university magazines, newspapers, press releases, booklets, brochures, pamphlets, newsletters, advertisements, the university website and associated sites, and other promotional materials.

IX. Distribution of Advertising Material, Propaganda, and the Like

Columbus State University does not endorse or sponsor campaigns, movements, drives, or the printed or duplicated materials used for persuading a desired opinion and/or action. The exchange, sale, giving for a consideration, bartering, or solicitation of gifts or donations is prohibited by an individual, group of individuals, company or corporation not authorized by the Vice President for Business and Finance. For additional information, please refer to the section entitled Policies listed previously in this handbook.

XI. Student Records Policies and Procedures

The Family Educational Rights and Privacy Act of 1974, as amended, grants students in institutions of higher education the right of access to their education records and preservation of the privacy of these records. In compliance with this act, Columbus State University has established policies and procedures to assure students of their rights under the Act.

Student Access to Educational Records

Any student who is or has been in attendance at Columbus State University will be allowed to inspect and review his/her education records except any items the student has waived his/her right to see, financial information submitted by parents, or information about other students when an education record contains such information. Education records do not include records of instructional, administrative, and educational personnel which are in the sole possession of the maker and are not accessible or revealed to any individual except a temporary substitute; records of the law enforcement unit, student health records, employment records, alumni records, or personal counseling records. Health records and counseling records, however, may be reviewed by physicians of the student's choosing.

Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the students of the time and place where the records may be inspected. If the records are not maintained by the

University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed. The review will be granted within a reasonable period of time, not to exceed forty-five (45) days.

When the original record is shown to the student, examination will be permitted only under conditions that will prevent its alteration, mutilation, or loss, including the presence of a representative of the institution. Upon reasonable request by the student, oral explanations and interpretations of the records will be given to the student immediately. When the student desires a written explanation or interpretation, or when it is not practical or appropriate to give an oral explanation or interpretation, the student shall request the explanation or interpretation in writing. The university official will provide the student with a written response to any reasonable written inquiries.

When the education record, or a portion thereof, is not in a form that can be readily reviewed by the student (stored on microfilm, in computer files, etc.), a true copy in understandable form will be provided for the student's inspection and review.

If it is impractical for a former student to inspect and review the records personally, a properly authorized representative of the student may exercise this right on behalf of the student, upon receipt by the institution of an appropriate written, notarized authorization from the student.

Copies of Records to Students

Upon written request and payment of appropriate fees as shown below, students in good standing with the institution will be provided with copies of part or all of their education records, with the exception of transcripts received from other educational institutions and any documents the student has waived his/her right to see. Such documents may be certified as true copies of the education records but will not be embossed with the institutional seal. The name of the institution shall be shown on all copies issued.

Copies of education records may be withheld by the institution when the students are not in good standing because of such conditions as unmet financial obligations and violations of institutional regulations. Such records to be withheld may include, but are not limited to, transcripts, and certifications of student achievement and performance.

Copies of Records to Third Parties at Student's Request

Copies of records that may be released to students may be sent to third parties upon the written request of the student. Such a written request must include:

1. A specification of the records to be disclosed;
2. A party or class of parties to whom the disclosure may be made;
3. The signature of the student and date of request;
4. The date the request is delivered to the Registrar or a designated representative of the Registrar.

Release of Directory Information

Directory information will be treated as public information and generally be available on all students and former students, at the discretion of the institution. Directory information includes:

The student's name, address, telephone number, e-mail address, date and place of birth, dates of attendance, enrollment status, major field of study, degrees, honors, and awards received, photograph, participation in officially recognized activities and sports, general interest items of athletic teams, and the most recent educational agency or institution attended.

Any student may refuse to permit the designation of all the categories of personally identifiable information as directory information by submitting a signed and dated Request to Withhold Student Information Form to the Registrar's Office. Students that choose to have directory information withheld will not appear in the student directory or campus publications, such as dean's list honors, etc. Selecting this option prohibits the Registrar's Office from conducting enrollment verifications of any type since the student information is then considered confidential. Students are encouraged to consult the Registrar's Office FERPA official before selecting the exclusion of directory information to fully understand the ramifications. Students should also note that once directory information is requested to be withheld, it cannot be changed until the Registrar's Office received a request in writing revoking the initial request to withhold information.

Release of Student Information to Third Parties

Disclosure of information contained in the education records of a student to individuals and organizations other than those specifically covered by the Family Educational Rights and Privacy Act shall be limited to items designated as directory information, except upon written, signed, and dated consent of the student.

GEORGIA OPEN RECORDS LAW: As a general rule, documents, papers and records prepared and maintained or received in the course of the operation of a public office or agency are public records within the meaning of the Open Records Law. The right to review or copy these records cannot be denied to any citizen. All records requests should be made in writing to the Director of Judicial Affairs. The director will analyze the scope of the request to determine whether the records requested, or any portion thereof, are required by law to be maintained as confidential. A copying fee of 25 cents per page may be charged. In addition, a reasonable charge may be collected for search, retrieval, and other administrative cost of complying with request for records. Arrangements for inspecting, reviewing, or copying of public records should be made by the director, who should determine an orderly and non-disruptive procedure for permitting access to the documents. Determinations to disclose records will be made on a case-by-case-basis.

Release of Student Information to Institutional Officials

Information from the education records of a student may be disclosed to University officials with a legitimate educational interest. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted such as an attorney, auditor, or collection agent; a person or a student serving on an official committee such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A University official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Release of Student Information to Other Institutions

Under FERPA regulation 99.31 (a)(2), a school district or postsecondary institution may disclose education records, without consent, to officials of another school, school system, or post secondary institution where a student "seeks or intends to enroll." The regulation clarifies that the authority to disclose or transfer education records to a student's new school does not cease automatically the moment a student has enrolled and continues to any future point in time so long as the disclosure is for purposes related to the student's enrollment or transfer. This means that a school may disclose any records or information,

including health and disciplinary records, that the school could have disclosed when the student was seeking or intending to enroll in the new school.

Correction of Education Records

When a student believes that information in the student's education records is inaccurate, misleading, or violates the privacy or other rights of the student, the student may submit a written request for correction to the University official responsible for creation and maintenance of the record. Such a written request will specify the information being questioned, state the revision requested, state the reasons the student has for disagreeing with the entry in question, and will include (or have attached) any data or information the student has which shows that the record should be revised. The University official will review the request and the appropriate records, and meet with the student if appropriate. The University official will notify the student of a decision within 21 days after receipt of the written request. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the requests for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

The above procedure may be used to question the correctness of the recording of a grade but may not be used to contest the assignment of grade.

Right to File a Complaint

A student has the right to file a complaint with the university's Registrar concerning alleged failure by Columbus State University to comply with the requirements of FERPA. If the complaint is not resolved by the University to the satisfaction of the student, the student may file a complaint to the Office that administers FERPA: Family Policy Compliance Office, U. S. Department of Education, 400 Maryland Avenue, S. W., Washington, DC 20202-4605.

XII. Equal Opportunity Policy

It is the policy of Columbus State University to ensure fulfillment of equal opportunity for all employees, students, applicants for employment and student applicants. No person shall be excluded from participation in, denied benefits of or be subject to discrimination under any University program or activity on the basis of race, color, creed, national origin, religion, gender, disability, or age.

Any student with a complaint or concern that is related to these standards should contact the Affirmative Action/Equal Opportunity Office at (706) 568-2005. This office is located in Richards Hall.

XIII. Academic and Non-Academic Misconduct and Appeals

A. Judicial Procedures for the Student

Since educational institutions have the responsibility for protecting the educational purposes for which they exist, and for establishing safeguards to insure that those charged with violations of institutional standards on scholarship and behavior are accorded equal protection from unfair disciplinary measures, the following procedures have been established for the resolution of disciplinary problems.

When appearing before either a Hearing Officer or Judicial Body, the accused and accuser are entitled to have a Hearing Advisor present. This Advisor must be from the Columbus State University community and must be a current student or member of the faculty or staff. The Hearing Advisor does not represent the student and is only at the hearing to offer advice and to ensure that a fair hearing occurs. Students and Hearing Advisors will not be allowed to hear deliberation proceedings. A Hearing Officer is defined as a Columbus State University faculty or staff member who is duly appointed to hear the facts of a matter, make a decision, and issue sanctions when appropriate.

Columbus State University will not tolerate academic misconduct or nonacademic misconduct. Any individual found to be in violation of the University standards,

policies or procedures will be subject to the sanctions/remedies listed in this handbook. Reporting academic, non-academic, or concerning behavior is the responsibility of all members of the campus community. Reports may be filed with the Behavioral Assessment and Recommendation Team (BART) as described in the General Information area in this handbook or found online in CougarNet

B. Academic Misconduct

The university recognizes honesty and integrity as central virtues of academic life and as fully necessary to its very existence. The university also recognizes and accepts that cooperation, discussion, and group studying outside of the classroom are essential elements of the academic experience, and that students may seek assistance in their studies, such as tutoring or peer review.

However, while such practices are acceptable and even encouraged, students must understand the parameters of accountability in their academic performance and need to respect the academic freedom of the faculty.

Therefore, the following regulations are published in the interest of protecting the equity and the validity of the student's grades and degrees, and in order to assist the student in developing standards and attitudes appropriate to academic life:

1. During examinations no student shall use materials not authorized by the instructor.
2. No student or other person shall obtain and furnish to any other student materials which can be shown to contain the questions or answers to any examination scheduled to be given at any date in any course offered by the university.
3. No student shall knowingly receive and use materials, which can be shown to contain the questions, or answers to any examination scheduled to be given at any date in any course offered by the university.
4. No student shall receive or give assistance in preparation of any assignment, essay, laboratory report or examination to be submitted as a requirement for any academic course in such a way that the submitted work can no longer be considered the personal effort of the student submitting the work. In the case of tutoring, peer review and similar instances of assistance, a special effort must be made to retain this distinction and the integrity of the student's personal performance.
5. In some cases, tutoring may border on academic irregularity; in the case of course requirements for a grade, it is the student's responsibility to clarify the instructor's policy. If the student is uncertain as to the direction of the instructor, it is the student's responsibility to seek clarification from the instructor.
6. Plagiarism is prohibited. Themes, essays, term papers, tests, and other requirements for a grade, must be the work of the student submitting them. When direct quotations are used, they must be indicated, and when the ideas of another are incorporated in the paper, they must be appropriately acknowledged. Term papers, reports, reviews, or other assignments may not be purchased for submission in lieu of the student's own efforts.
7. Any person taking, or attempting to take, steal or otherwise procure in any unauthorized manner any material pertaining to the conduct of a class, including tests, examinations, laboratory equipment, roll books, etc., shall be in violation of these regulations.

C. Academic Appeal Procedures for Students

There are three processes for academic appeals depending on what is being appealed and when the appeal is occurring: Academic Grievance, Medical Withdrawals, and Academic Standards.

1. Academic Grievance

This kind of appeal involves matters internal to a course, to include perceptions of unfair or inaccurate grades, failure of the teacher to follow policy, and so on. Matters possibly involving discrimination against protected classes will be promptly forwarded to the university's Affirmative Action Officer for handling.

The academic appeal process is intended to resolve academic or related differences

concerning academic fairness which may arise between a student and a faculty member within a particular course during a single semester/term. The student should use this process to:

- a. Appeal a course grade;
- b. Exercise his/her rights as defined in the course syllabus, the CSU Student Handbook, university policy, or policies of the University System of Georgia;
- c. Refute academic dishonesty charges;
- d. Compel a faculty member to fulfill her instructional responsibilities as defined in the CSU Faculty Handbook and published department or college policy; and/or
- e. Plead for a less severe penalty in case of an acknowledged incident of academic dishonesty.

The student commences an appeal by completing the Academic Appeal Form (available online or in hard copy from the department chair) and submitting it and appropriate supporting documentation to the chairperson who oversees the course involved in the appeal. If the chairperson is unavailable within three university working days, or if the faculty member named in the appeal is a department chairperson, the appeal should go to the chairperson's dean for review. If a dean is the faculty member named in the appeal, the appeal should be submitted to the Office of the Provost for review. The appropriate recipient of the appeal is hereafter referred to as The Reviewer. Communications with the student will be sent via the student's CSU email address unless the student has submitted a written request for an alternative form of contact.

Unless an extension is approved by the dean of the appropriate college or the Provost, the appeal should be submitted by the student not more than ten university working days after the start of the term immediately following the term in which the course was taken.

Ordinarily, The Reviewer will acknowledge receipt of a written appeal and notify the faculty member of the appeal within three university working days of its receipt. The faculty member named in the appeal must provide a written response to the charges within ten university working days of the date on which the appeal was submitted. The Reviewer will ordinarily send a decision to the student not more than twenty university working days after the appeal was filed; when more time is required, The Reviewer will notify the principals within the 20-day deadline that an extension is required. Upon a request by the instructor named in the appeal, The Reviewer may suspend the process to allow time for the principals (student and faculty) to discuss the dispute or participate in mediation.

The Reviewer may require the student and/or the faculty member to appear to discuss the case before rendering a decision. Either principal may also request a meeting with The Reviewer to discuss the appeal before a decision is reached.

The Reviewer will write a decision that articulates the relevant facts of the case and the outcome. The document must include: Specific Charges, Findings of Fact, Conclusions, and Actions To Be Taken. Decisions made by the faculty and chair are limited to course specific outcomes. Possible outcomes at the university administrative level include the following:

1. **Expulsion** - permanent forced withdrawal from the University
2. **Suspension** - forced withdrawal from the University for a specified period of time.
3. **Forced withdrawal from the course** and/or department within which the offense occurred, either with or without credit for the course as may be adjudged
4. **Reprimand** - an admonition which may be either verbal or written
5. **Restitution** - compensation to the person or University body whose property rights have been violated by the offender

6. An appropriate change in grade

7. Probation - placing the student under restrictions for a specified period of time

8. Referral - may include referral to agencies or individuals for specific evaluation, treatment, assistance or action.

Copies of the appeal decision will be sent to the principals, the chairperson, the dean, and the Office of the Provost. When it has been determined that a student is guilty of multiple incidents of academic dishonesty, the Office of the Provost will initiate an administrative review that may result in additional sanctions against the student.

A decision by a department chair may be appealed to the appropriate dean. A dean's decision may be appealed to the Provost. Filing an appeal of a decision represents an opportunity to rectify a failing that occurred within the appeal review. Therefore, the filing of an appeal must focus on: (1) a request to introduce new and compelling evidence which was not available at the time of a hearing and which could apparently result in a different final decision, (2) the documentable failure of the decision to comply with specific Columbus State University or University System of Georgia policies, or (3) the documentable error of facts substantial enough to apparently result in a different final decision. All decision appeals must be made in writing and received by the appropriate party not more than 5 university working days after the decision was issued. The burden of proof falls on the principal making the appeal.

2. Medical/Hardship Withdrawal

Appeals for medical/hardship withdrawals, if the semester affected is still in session are made directly to the Dean of Students in the Schuster Center. Appeals for medical withdrawals, if the semester has ended and final grades have been posted are made to the Academic Standards Committee.

A student may be Administratively Withdrawn from the University when in the judgment of the Dean of Students, and after consulting with appropriate university officials, such as the Director of Student Health Services and/or the Director of the Counseling Center, it is determined that the student suffers from a physical, mental, emotional, or psychological health condition which poses a significant danger or threat, the university, or a student shall, upon written request, be accorded an appropriate hearing with the Vice President for Student Affairs prior to final decision concerning his or her continued enrollment at the University. In emergency situations, a decision on medical withdrawals may be made prior to a hearing, but review of the decision may be made at the student's request. All Administrative Withdrawals should be reviewed within 72 hours of the time of withdrawal and recommendation for appropriate action forwarded to the Vice President for Student Affairs.

In addition, the student should understand that:

- a. Medical/Hardship withdrawals should be processed as complete withdrawals from the University, unless a partial withdrawal is deemed appropriate by a qualified medical professional and then approved by the Dean of Students. There is no monetary refund for a partial medical withdrawal.

Note: Students living in on-campus housing should consider the 12 credit hour rule for residency, if they intend to request a partial withdrawal. Additional approval may be required by the Director of Residence Life to remain in housing.

- a. The date of the medical withdrawal should coincide with the last date of attendance in class.
- b. How the student was performing in classes prior to the medical situation or condition will not affect whether the student gets a medical withdrawal.
- c. A complete medical withdrawal from the University will qualify the student for a pro-rated refund if the withdrawal date is still within the allowable period in the semester (pro-rated refunds do not continue through the entire semester). The pro-

rated refund schedule for the current semester can be found at: <http://registration.columbusstate.edu/refundtbl.php>. (See the Bursar's Office for balance inquiries)

- d. If a student completed a "part-of-term" course that ended prior to the medical condition, a partial withdrawal may be acceptable to receive course credit for that course. However, there will be no prorated refund for the remaining classes.
- e. A student who files, or attempts to file, a fraudulent application for a medical withdrawal to avoid a failing grade or disciplinary action will be considered in violation of the Columbus State University Student Conduct Standards and subject to disciplinary charges.

Procedure: The Student should submit a request for a medical hardship withdrawal online at <http://sa.columbusstate.edu/forms.php>

If it is determined by qualified medical personnel and approved by the Dean of Students that a student is not physically or mentally capable of completing this process, the student's parent, guardian, or legal next of kin (whichever is most appropriate) may act on the behalf of the student.

Once this information is received the student's case will be reviewed and a decision forwarded to the registrar. A copy of that decision will be mailed to the student.

Students who receive a medical withdrawal will have a hold placed on future course registrations. They will be required to apply for readmission through the Office of the Dean of Students.

If Student is unable to scan documentation and attach, send all supporting documents to: Office of the Dean of Students

3. Academic Standards Committee (ASC)

The Academic Standards Committee (ASC) reviews four types of appeals, all of which involve factors external to the contents of a particular course.

- a. Grade Appeals of WF or W
- b. Grade Appeals of F to a Productive Grade (A, B, C, etc.)
- c. Medical Withdrawal (if the semester affected has ended and final grades have been posted)
- d. Exception Petitions

For assistance with any of these appeals, the student should see his/her advisor or department chair.

The Academic Standards Committee does not review appeals regarding the fairness or accuracy of the grade itself. For those kinds of appeals, see Academic Grievance.

Appeals must be made within two years of the original grade unless there are extremely extenuating circumstances (military duty, lengthy hospitalization) to justify an appeal older than two years.

eCore Academic Appeals

If a student wants to make a grade appeal for an eCore course, the student should first contact the CSU eCore advisor, located in the Registrar's Office in Enrollment Services. The eCore advisor will provide the necessary steps for the student to submit the grade appeal.

D. Non-Academic Misconduct

Students found to be in direct social contact where a violation is found to have occurred may be held responsible for the violation. This includes all areas of any apartment, vehicle, or property where the violation occurred.

1. Alcoholic Beverages

The legal age for possession and consumption of alcoholic beverages in accordance with Georgia law is 21 years old. Subsequently, it shall be a violation of this Policy for any member of the University community who is under the legal drinking age to possess or consume alcohol, or for a member of the University community who is of legal age to provide alcohol to another member of the University community who is under 21.

Residence Halls: As Courtyard I and Broadway Crossing are primarily reserved for traditional-age first year students (18-19), consumption or possession of alcohol by guests or assigned residents, regardless of legal drinking age, is not permitted at any time in or around the facilities. Possession of alcohol containers for decorative purposes is strictly prohibited, as bottles may be considered evidence of consumption.

In Columbus Hall, Courtyard II, Maryland Circle, Fontaine, Oglethorpe, Yancey at One Arsenal, and Rankin student housing units, alcoholic beverages may be consumed by members and guests of legal drinking age in the privacy of the apartment. Residents who are under the legal drinking age may not host guests who are in possession of alcohol. Unless all assigned residents of the unit are of legal drinking age, alcohol must be stored and secured within the owner's bedroom and may not be stored in areas accessible to all residents of the unit. Residence Life staff and the CSU University police reserve the right to require verification of the ages of any guest and the host resident (s) will be held accountable for the action of their guest(s). Kegs, "drinking fountains", or other common containers are not allowed at any time in or around the residential facilities. Those of legal age who choose to drink are encouraged to do so safely, responsibly and in moderation. It is imperative that residents understand their individual rights and responsibilities if they choose to consume alcohol or host gatherings that involve the consumption of alcohol on the grounds of University housing. If a resident is found acting in a hostile or threatening manner, University police will be notified. It is the responsibility of all residents to understand the alcohol policy of Columbus State University as it applies to the entire campus.

On campus: The University does not condone or sanction the use, distribution, sale, brewing, consumption or possession of alcohol at any campus event sponsored by individual students or recognized student groups, clubs, or organizations, or any student event supported by student activity fees or state funds (this does not pertain to events which may be sponsored by an academic department or unit).

Student Travel: This Policy on Alcohol applies to students who travel on university-official business. Students who travel in an official capacity are expected to abide by the rules set forth in this policy, with the exception of students participating in a Study Abroad program. Participants in Study Abroad programs are bound by the legal drinking age of the respective countries in which they are traveling, but in all other respects this policy applies. Cases of excessive drinking, as determined by the Faculty Site Director who facilitates the Study Abroad program, may result in an automatic first offense warning. Further, sanctions while students are traveling abroad may be determined by the Center for International Education and/ or the Dean of Student Affairs.

A full version of the Columbus State University Policy on Alcohol can be obtained in the Office of the Dean of Students or on the Alcohol and Drug Education Task Force website.

Violations that occur in areas designated as Residence Life may be handled as an administrative hearing through the office of the Director of Residence Life, in accordance with policy and in consultation with the Dean of Students.
2. Minimum requirements for an administrative hearing consist of the student being given notice of the alleged violation(s), an explanation of charges, and an opportunity to be heard by an appropriate Hearing Officer. However, a Hearing Officer may determine that the student and/or the University may best be served by using the following procedure. The student may also request that these procedures be used.

Procedures for Administrative Hearing:

- a. A reasonable effort will be made to deliver a hearing notice and full disclosure of all reports and evidence to student(s) accused of violating Student Conduct Standards.

If questions or doubts arise concerning the validity of the confession, the Hearing Officer may require that witnesses or evidence be produced.. The Hearing Officer is responsible for making certain that the accused is not using a false claim to avoid penalty.
3. After an administrative hearing where the student is found to be responsible for violation(s) of University rules or policies, the Hearing Officer will assign an appropriate sanction(s).

4. Appeals:

Appeals of a decision by the Director of Residence Life are to be forwarded to the Office of the Dean of Students. Appeals of a decision by the Dean of Students are to be forwarded to the Vice President for Student Affairs. The decision of the Vice President of Student Affairs is final. Appeals must be submitted within 10 working days of the completion of the hearing.

The University will entertain appeals from students that have been suspended, expelled, removed from housing, or removed from class or forced to withdraw from the course and/or department. Victims in a sexual misconduct case are also afforded the same appeal process. Other cases may be reviewed in regard to policy and procedural accuracy upon the request from the student.

Appeals based solely on the assertion of innocence will not be considered. Appeals of the Hearing Officer's decisions may be made under the following circumstances:

- a. A request to introduce new and compelling evidence which was not available at the time of a hearing and which could apparently result in a different final decision;
- b. The specific citation of a violation of due process as it is defined in this policy;
- c. The documentable failure of the decision to comply with specific Columbus State University or University System of Georgia policies;
- d. The documentable error of facts substantial enough to apparently result in a different final decision; or

All Interim Suspensions should be reviewed within 72 hours of the time of suspension and a recommendation for appropriate action forwarded to the Vice President for Student Affairs.

2. A person suspended or expelled is prohibited from entering the facilities or property of Columbus State University or the Columbus State Foundation except for the pursuit of due process.

XV: Reviewing and Amending

- A. The Student Government, the faculty by formal vote of the Faculty Senate, the Activities Committee, any group of 100 or more students by petition, or the residents of Columbus State University may propose amendments or revisions. The Columbus State University Student Handbook is a summary of policies and procedures that have been developed over time. Other policies and procedures that relate to specific operations of the University may exist and apply, but they may not have been included in this publication. As the need arises, University officials reserve the right to amend, change, delete and/or develop new policies and procedures to meet the needs of the institution. All new policies or policy changes become effective immediately upon being posted on the CSU Announcements area of CougarNet.
